APPENDIX E - HISTORICAL RESEARCH DOCUMENTATION

APPENDIX F - DATA GAP WORKSHEET

APPENDIX G - PERSONNEL QUALIFICATIONS

# 1 FINDINGS AND CONCLUSIONS

Emerald, Inc. performed a Phase I Environmental Site Assessment (Phase I ESA) on the property known as the Utility Billing Site (subject site) located at the intersection of S. Main Street and E. Bartlette Street in Sumter, South Carolina. Specifically, the site is located on the southeast corner of the intersection of S. Main Street and E. Bartlette Street within the city limits of Sumter. The assessment included a Phase I ESA only. Emerald, Inc. performed the assessment to comply with the agreement between Emerald, Inc. and the City of Sumter, Buyer, as part of a due diligence process. Figure 1 in Appendix A contains a general location map for the site.

The subject site consists of six parcels of real estate within a one block area bounded by E. Bartlette Street on the north, S. Harvin Street on the east, E. Oakland Avenue on the south, and S. Main Street on the west. The subject site contains four buildings and one shed, all of which are presently vacant. Historical data provided by EDR (Environmental Data Resources) indicates that the site was occupied by numerous businesses, hotels plus single and multi-family residencies in the past. Business use has included used car sales and service plus automobile repairs shops. Such information was based on a review of Certified Sanborn® Map Reports from 1889 until 1962. In addition, the site addresses were listed in The EDR-City Directory Image Report from 1960 until 2013. The subject site addresses are not listed in the EDR report regarding any past environmental activities, permits and/or releases of hazardous materials or petroleum products. Within a 500 foot radius of the site are at least six former gasoline stations, two of which have reported prior releases of petroleum product to SCDHEC. One site which is adjacent to the subject site on the southwest corner is a former gasoline station (Spur) in the 1960 City Street Directory provided by EDR.

On the day of the site review, Tuesday, June 28, 2016, observations were conducted on and around the site by Ronny L. Lowder, Environmental Professional. The site was observed to contain four buildings and one shed which were all vacant on the day of the site review. One building located at 12 E. Bartlette Street (Steve's Mr. Fix It) was observed to have numerous containers of used oil outside the building, including 5 gallon containers, 55 gallon drums, and 250 gallon totes. Surface discoloration from the used oil was also observed at the same site. The former Spur gasoline station, adjacent to the subject site on the southwest corner, was observed to contain 2 former dispenser islands and a possible underground storage tank. Three buildings on the site may contain asbestos which is considered a Business Environmental Risk (BER) which is not part of the Phase I ESA Scope of Work as per the guidelines of ASTM and EPA.

Current uses of adjoining properties, based on observations during the site reconnaissance are described below:

- North of the subject property is E. Bartlette Street with a nursing school for Central Carolina Technical College (CCTC) located north of the street. This site formerly contained a gasoline station which has previously reported a release of petroleum product to SCDHEC.

- East of the subject property is S. Harvin Street.
- South of the subject property is E. Oakland Avenue beyond which is the former Sumter Electric & Rewinding site.
- West of the subject property is Andrews Small Engine and the former Spur gasoline station. In addition, part of the site is S. Main Street beyond which is the location of four former gasoline stations, one of which has reported a release of petroleum product to SCDHEC.

Based on my review of the subject site and the adjacent properties, there were no findings of Recognized Environmental Conditions (REC's) as per the requirements of ASTM 1527-13 and EPA's All Appropriate Inquiry, except the following:

- The former Steve Mr. Fix It building located at 12 E. Bartlette Street contains surface discoloration from used oil plus numerous full and partially full containers of used oil.
- At least two addresses on E. Bartlette Street, 8 and 12, have formerly contained automobile repair garages per the street directories and Sanborn maps.
- The site is bounded on the southwest corner by the former Spur gasoline station which still may have at least one underground storage tank. No reports of releases have been filed for this site in the past.
- Within 500 feet west of the subject site is the location of at least four former gasoline service stations, one of which has reported a prior release to SCDHEC.

As a result of the findings, additional investigation needs to be conducted on the site to determine the current status of the soil and groundwater beneath the site.

## **1.1 PHASE I ESA**

Emerald, Inc. performed the Phase I ESA in general conformance with ASTM E 1527-13 and EPA's All Appropriate Inquiry, to comply with the agreement between the City of Sumter and Emerald, Inc. Limitations, exceptions and deviations from this protocol are discussed in Section 3.

### **1.1.1 OPINIONS**

#### **Significant Data Gaps**

It is my opinion as the Environmental Professional that the information gathered and evaluated did not present significant data gaps that affected my ability to identify REC's in connection with the subject property. The oldest aerial photograph reviewed was from

1957 at which time the site was observed to be fully developed. The Practice advises the review of aerial photographs from 1940 to the present in 5 year increments. Such were not available for review, and, it is my opinion as an environmental professional that the lack of any aerial photographs from 1940 to the present does not change my opinion on the conclusions as presented in this report.

### **On-Site Conditions**

This assessment did reveal specific REC's on the subject site as of the date of the site review, June 27, 2016. Such REC's are listed specifically in Section 1 of this report.

## **1.2 CONCLUSIONS**

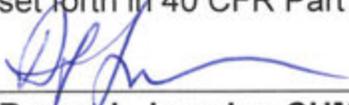

I have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E 1527-13 on the Utility Billing Site located in the southeast block of the intersection of S. Main Street and E. Bartlette Street in Sumter, S.C., the property. Any exceptions to, or deletions from, this practice are described in Section 3.4 of this report. This assessment did reveal evidence of specific REC's as described in Section 1.

This summary does not contain all the information as presented in the full report. The report should be read in its entirety to obtain a more complete understanding of the information provided and to aid in any decisions made or actions taken based on this information.

### **ENVIRONMENTAL PROFESSIONAL DECLARATIONS**

Ronny L. Lowder, CHMM, Environmental Professional, gathered, compiled, reviewed and interpreted the information contained in this report and performed the site and area reconnaissance.

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR Part 312. I have the specific qualifications based on education, training and experience to assess a property of the nature, history and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

## 2 INTRODUCTION

### 2.1 CONTRACT

The agreement between Emerald, Inc. and Client is summarized below:

Summary	
Client	City of Sumter
Authorizing Party / Title	Charles Howell / LandPlan South
Engagement Date / Method	May 9, 2016 / Email Notification

Emerald, Inc. considers the client to be the 'User' of our assessment, defined in the Practice as:

"The party seeking to use Practice E 1527-13 to complete an environmental site assessment of the property. A user may include, without limitation, a potential purchaser of a property, a potential tenant of property, an owner of property, a lender or a property manager. The user has specific obligations for completing a successful application of this practice...."

### 2.2 PURPOSE OF SERVICES

Based on the information provided, Emerald, Inc. understands that the purpose for having the Phase I ESA performed is to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on CERCLA liability (hereinafter Landowner Liability Protections or LLP's). The scope of services presented below is intended to satisfy this purpose.

Emerald, Inc. performed the Phase I ESA in conformance with ASTM E 1527-13, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process (the Practice), and EPA's All Appropriate Inquiry (AAI). The purpose of the Practice was to define good commercial practice for conducting an environmental site assessment and as such, the Practice is intended to permit the user to satisfy one of the requirements to qualify for the LLP's. The goal of the processes established by the Practice is to identify Recognized Environmental Conditions (REC's) in connection with the property.

### 2.3 STANDARD OF CARE AND WARRANTIES

No Phase I ESA can wholly eliminate uncertainty regarding the potential for REC's in connection with the property. The Phase I ESA was intended to reduce, but not eliminate uncertainty regarding the potential for REC's in connection with a property.

This report is based on commonly known and reasonably ascertainable information, including limited, ground-level visual inspection of the property except where otherwise

explicitly indicated, in conformance with ASTM E 1527-13. Findings and conclusions derived from the methodologies described in the Practice contain all of the inherent limitations in the methodologies that are referred to in the Practice.

Emerald, Inc. did not perform any invasive probing or discovery, perform tests, operate any specific equipment, or take measurements or samples to perform the Phase I ESA scope. The Phase I ESA was not a building code, safety, regulatory or environmental compliance inspection. The Phase I ESA is not intended to reduce the risk of the presence of mold and physical deficiencies conducive to mold nor the risk that mold or physical deficiencies conducive to mold may pose to the buildings and building occupants.

The methodologies include reviewing information provided by other sources. Emerald, Inc. treats information obtained from the record reviews and interviews concerning the property as reliable and the ASTM protocol does not require Emerald, Inc. to independently verify the information. Therefore, Emerald, Inc. cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. No other warranties are implied or expressed.

Emerald, Inc. warrants that the findings contained in this report have been prepared in general conformance with accepted professional practices at the time of report preparation as applied by similar professionals. Future changes in standards, practices, or regulations cannot be anticipated and have not been addressed.

The observations and recommendations presented in this report are time dependent, and conditions will change. This report speaks only as of its date.

## **2.4 USE BY OTHER PARTIES**

This report was prepared pursuant to an agreement between Emerald, Inc. and its client. That contractual relationship included an exchange of information about the property that was unique and serves as the basis upon which this report was prepared. Because of the importance of these understandings, our assessment may not be sufficient for the intended purposes of another party.

Reliance or any use of this report by anyone other than those parties identified above, for which it was prepared is prohibited and therefore not foreseeable to Emerald, Inc. Any unauthorized reliance on or use of this report, including any of the information or conclusions contained herein, will be at the third party's risk. No warranties or representations expressed or implied in this report are made to any such third party.

Third party reliance letters may be issued upon timely request to Emerald, Inc. and approved by the Client. All third parties relying on our report, by such reliance, agree that such reliance is limited by our proposal and General Conditions.

### 3 SCOPE AND RESOURCES

#### 3.1 PHASE I ESA

Emerald, Inc. performed a Phase I ESA for the subject property that generally conforms to the scope and limitations of the Practice. The assessment included four components:

- Records review;
- Reconnaissance;
- Interviews; and,
- Preparation of this report, including our evaluation.

The scope of our services and the information resources accessed are detailed below.

##### 3.1.1 STAFF

Ronny L. Lowder, CHMM, Environmental Professional, gathered and compiled information for this assessment, including performing the site and area reconnaissance on June 28, 2016. The credentials and qualifications for the person performing the required components of the Phase I ESA are included in the appendices of this report, specifically Appendix G.

##### 3.1.2 RECORDS REVIEW

###### Physical Setting Sources

Emerald, Inc. reviewed United States Geological Survey (USGS) Topographic (Topo) Maps and other information regarding the physical setting of the site to assist with the interpretation of subsurface water movement near the property.

Summary	
Source Name	Year Published / Issued
USGS 7.5 Minute Topo Map	Sumter East, SC / 2014 Version
Soil Survey of Florence and Sumter County, South Carolina	USDA, Soil Conservation Service, Sept 1974

The appendices section of this report (Appendix A) contains copies of the USGS topographic map (Figure 2) and the soil survey map (Figure 3).

###### Environmental Regulatory Database Information

Emerald, Inc. used Environmental Data Resources, Inc. (EDR) to provide environmental database information attributed to the site and its surroundings. EDR obtains environmental databases published by local, state, tribal, and federal agencies and geocodes the information for electronic searches. EDR's services include reporting Standard Environmental Records Sources and, in most cases, some Additional

## Environmental Records Sources.

The search was performed to Approximate Minimum Search Distances (AMSD) listed in ASTM E 1527-13.

Unmappable (orphan) sites listed with insufficient address or geocoding information for EDR to map were evaluated for potential location within the AMSD. Emerald, Inc. used information provided about the city, county and zip code attributed to these sites to determine if they are located in the vicinity of the subject property.

### Historical Use Information

Emerald, Inc. used USGS Topo maps and retained EDR to provide information about the history of the site and its surroundings. Emerald, Inc. also referenced other historical sources.

<b>Summary</b>			
<b>Source Type</b>	<b>Years Reviewed</b>	<b>Source</b>	<b>Note</b>
<b>USGS Topo Maps</b>	See Section 3.1.2	USGS	
<b>Aerial Photograph(s)</b>	1957, 1961, 1983, 1990, 1994, 1999, 2005, 2006, 2009, 2011	EDR Aerial Photographs	
<b>Fire Insurance Maps</b>	1899 thru 1962 (as available)	Sanborn Fire Insurance Maps	
<b>Street Directories</b>	1960 thru 2013	EDR City Directory Image Report	NR
<b>Building Dept. Records</b>	NA		NR

NA = None Available (Not Readily Ascertainable). NR = Not Reviewed. NPR = Not Practically Reviewable. NLU = Not Likely Useful. Topographic Maps reviewed are previously listed.

### Recorded Land Title Records

Emerald, Inc. did review title records to obtain information about the current and past owners of the site and prior uses for a limited amount of time (see Figure 4 in Appendix A).

### User-Provided Information

The Practice describes information to be provided by the user, owner and key site manager. This information is detailed on questionnaires that Emerald, Inc. had the user / owner complete. Such can be found in the appendices (Appendix D).

### 3.1.3 RECONNAISSANCE

The ground reconnaissance consisted of walking and riding the site, and observing the adjacent properties from the boundaries of the subject site. Visual reconnaissance of adjoining properties was limited to areas and facilities that were readily observable from

the subject property. Reconnaissance was conducted on June 28, 2016. Photographs were taken during the reconnaissance, and are part of the appendices of this report (Appendix B).

### **3.1.4 INTERVIEWS**

Emerald, Inc. made reasonable attempts to interview persons associated with the use and ownership of the subject site. A list of the persons that Emerald, Inc. interviewed along with our interpretations is presented in Section 8.

### **3.1.5 REFERENCES**

The information sources that Emerald, Inc. used, including published material, material obtained from commercial sources, from other sources, or provided to us through questionnaires is per the information presented in this report. Such information may be referenced in the appendices of this report.

## **3.2 OTHER ENVIRONMENTAL ISSUES**

Our services did not include effort outside the scope of the Practice to evaluate issues related to business environmental risk associated with the property.

## **3.3 SIGNIFICANT ASSUMPTIONS**

Emerald, Inc. made the following assumptions in developing our Phase I ESA findings and conclusions:

- Groundwater Flow Direction - Emerald, Inc. interpreted and inferred the direction of the shallow groundwater movement based on the information we obtained and our experience. Actual groundwater flow may be locally influenced by many factors beyond the scope of this study.
- Regulatory Agency Information - Emerald, Inc. considers all information provided by EDR regarding regulatory status of facilities to be complete, accurate, and current.
- Other Regulatory Information - Emerald, Inc. considers all other information obtained from regulatory or enforcement agencies to be complete, accurate, and current.
- Interviews - Emerald, Inc. considers all information provided through interviews to be complete, unbiased and provided in good faith.

### 3.4 LIMITATIONS, EXCEPTIONS, DEVIATIONS AND DATA GAP

Emerald, Inc. considers that limitations, exceptions and deviations from the Practice manifest as a lack of or inability to obtain information required by the Practice. This represents the definition of the 'data gap' contained in the Practice.

Emerald, Inc. tracked the components for this assessment on the Data Gap Worksheet which is found in the appendices (Appendix F). Therefore the limitations, exceptions and deviations are identified in the Worksheet. Data Gap information is presented in Section 1.1.1.

The following Data Gaps were encountered during compilation of this report:

- Since the subject property had been researched by the client, a lien search was not performed. Based on the historic use and ownership of the subject property, the lack of a title search for environmental liens would not be expected to alter the findings and conclusions of this report. Therefore, this data gap was not considered significant in identifying recognized environmental conditions at the property.
- Historical maps and aerial photographs of the subject property were not readily available back to 1940. The oldest aerial photograph was from 1957 which showed the site as being developed for various uses. We did review aerials from 1957 to 2011 as provided by EDR. It is the opinion of the Environmental Professional that this data gap did not prevent us from reaching the conclusions found for this site.

## 4 USER-PROVIDED INFORMATION

Emerald, Inc. did provide the Client with an User Questionnaire which was completed and returned to us by the Client. Selected portions are discussed in the following sections.

Summary				
Questionnaire Returned? (See Notes)				
User	Owner	KSM	Other	Questionnaire Name
Y	Y	N		"User's Responsibilities"
Y	Y	N		Section 10.8 "Helpful Documents"
Y	Y	N		Section 10.9 "Proceeding"
Notes: Y (Yes) /P (Partial) /N (No) /NS (Not Sent by Emerald, Inc., e.g. Party Not Identified) KSM = Key Site Manager				

## **4.1 USER'S RESPONSIBILITIES**

### **4.1.1 LIENS**

Since the Client issued a notice to proceed, a lien search was not performed.

### **4.1.2 ACTIVITY AND LAND USE LIMITATIONS (AUL's)**

Since the use of the property could be documented, a search for AUL's was not performed.

## **4.2 HELPFUL DOCUMENTS**

The Client did not provide Emerald, Inc. with any reports of prior assessments of the site.

## **4.3 PROCEEDINGS**

The Client did not provide Emerald, Inc. with documentation about any legal proceedings or litigation involving the subject property.

## **4.4 SUGGESTED INFORMATION**

Emerald, Inc. requested certain information about the property to assist with our assessment. Such information, such as ownership and history of ownership, is presented in the appendices of this report.

## **4.5 FINDINGS**

Emerald, Inc. did identify REC's adjacent to the site as described in Section 1.

## 5 SUBJECT PROPERTY USAGE

### 5.1 LOCATION AND LEGAL DESCRIPTION

<b>Summary</b>	
<b>Project Name</b>	Utility Billing Site
<b>Property Location</b>	SE Block of Intersection of S. Main St and E. Bartlette St
<b>City, County, State, ZIP Code</b>	Sumter, Sumter County, South Carolina 29150
<b>Site Area (acres)</b>	6 Parcels - approx. 3.26 acres
<b>No. Buildings/Units/Stories</b>	4 Buildings - Single Story
<b>Area (sf)</b>	NA
<b>Occupied Subgrade Spaces?</b>	No
<b>Year(s), First Developed for Current Use</b>	Developed prior to 1940
<b>Year(s), Additional Phases</b>	Unknown
<b>Year Significant Renovations</b>	Unknown

The legal description of the property was not provided to Emerald, Inc. The property is shown as Tax Map Numbers 228-13-09-023, 228-13-09-024, 228-13-09-025, 228-13-09-026, 228-13-09-033, and 228-13-09-029 in the Sumter County Assessor's office.

### 5.2 PHYSICAL SETTING

<b>Summary</b>	
<b>Nominal Elevations, (ft, MSL)</b>	169
<b>Surface Topo Characteristics</b>	No Defined Slope
<b>General Soil Type, Slopes</b>	Lynchburg Sandy Loam
<b>On-Site Water Bodies</b>	None
<b>Off-Site Water Bodies</b>	None
Note: MSL means Mean Sea Level	

The site is located within the Middle Coastal Plain Physiographic Province of South Carolina. This province is characterized by unconsolidated sediments of fluvial and marine origin resting unconformably on chrystalline bedrock located at a depth of approximately 600 feet below land surface (BLS). Surficial sediments in the Sumter County area are Pliocene age terrace deposits produced by river incisement of Cretacious and Tertiary sediment during periods of low sea levels. (Information collected from "Soil Survey of Florence and Sumter Counties, South Carolina", USDA and Soil Conservation Service,

issued September 1974.) A copy of the soil survey map for the site can be found in the appendices.

The site is approximately 169 feet above mean sea level with no defined slope. The general slope of the topography in the area is toward the southeast. Such information was determined from the USGS topographic map for the area (copy of the map can be found in the appendices).

Emerald, Inc. did not conduct any borings on the site to determine the soil structure or the depth to shallow groundwater.

### **5.3 CURRENT USES**

The subject site is currently not being used but contains four buildings and a shed.

### 5.3.1 INTERIOR AND EXTERIOR OBSERVATIONS

A summary of uses and conditions is tabulated below. Detailed information is discussed following the summary along with an opinion about the significance of the listing.

Summary		
Identified?		
Yes	No	
	X	Hazardous Substances
X		Petroleum Products
	X	Aboveground or Underground Storage Tanks (AST's/UST's)
X		Drums
X		Suspect Containers
	X	Electrical or Mechanical Equip. Suspected to Contain PCBs
	X	Interior Stains or Corrosion
	X	Drains or Sumps
	X	Wastewater Discharges
	X	Septic or Sewage Tanks
	X	Pits, Ponds or Lagoons
	X	Pools of Liquid or Standing Water
	X	Solid Waste Dumping/Landfills/Suspect Fill Material
X		Stained Soil or Pavement
	X	Stressed Vegetation
	X	Drinking Water Wells
	X	Irrigation Wells
X		Monitoring Wells
	X	Odors
	X	Other Uses or Conditions of Concern

Petroleum Products - The site at 12 E. Bartlette Street has numerous containers of used oil.

Drums - The site at 12 E. Bartlette Street has numerous drums of used oil and unidentified material suspected to be used oil.

Suspect Containers - The site at 12 E. Bartlette Street has numerous containers suspected to be used oil.

Stained Soil or Pavement - The site at 12 E. Bartlette Street has both stained soil and pavement.

Monitoring Wells - The site at 201 S. Main Street has monitoring wells associated with the former gasoline station investigation at the CCTC site north of the subject site.

### 5.3.2 UTILITIES

The site does contain underground utilities.

## 5.4 PAST USES

Our interpretation of the past uses of the property is tabulated below.

Summary	
Year(s)	Interpreted Property Use
Late 1800's to Present	Developed Site with Multiple Uses including hotels, auto sales and repair, Bus Station, Single & Multi-Family Residential

Emerald, Inc. did identify REC's with the past usage of the property involving automobile repair. Section 1 of this report has detailed information regarding the REC's.

## 6 ADJOINING AND SURROUNDING PROPERTY USAGE

### 6.1 CURRENT ADJOINING PROPERTY USAGE

Current uses of adjoining properties, based on observations during the site reconnaissance are described below:

- North of the subject property is E. Bartlette Street with a nursing school for CCTC located north of the street. This site formerly contained a gasoline station which has previously reported a release of petroleum product to SCDHEC.
- East of the subject property is S. Harvin Street.
- South of the subject property is E. Oakland Avenue beyond which is the former Sumter Electric & Rewinding facility.
- West of the subject property is Andrews Small Engine and the former Spur gasoline station. In addition, part of the site is S. Main Street beyond which is the location of four former gasoline stations, one of which has reported a release of petroleum product to SCDHEC.

A summary of current conditions on adjoining properties based on observations is tabulated below:

Summary		
Identified?		
Yes	No	
	X	Hazardous Substances
X		Petroleum Products
X		Aboveground or Underground Storage Tanks (ASTs/USTs)
	X	Drums
	X	Suspect Containers
	X	Electrical or Mechanical Equip. Suspected to Contain PCBs
	X	Interior Stains or Corrosion
	X	Drains or Sumps
	X	Wastewater Discharges
	X	Septic or Sewage Tanks
	X	Pits, Ponds or Lagoons
	X	Pools of Liquid or Standing Water
	X	Solid Waste Dumping/Landfills/Suspect Fill Material
	X	Stained Soil or Pavement
	X	Stressed Vegetation
	X	Drinking Water Wells
	X	Irrigation Wells
	X	Monitoring Wells
	X	Odors
	X	Other Uses or Conditions of Concern

Petroleum Products - The subject site is bounded on the southwest corner by the former Spur gasoline station. There are 2 dispenser islands still on the site.

Aboveground or Underground Storage Tanks (AST's/UST's) - The former Spur station was observed to possibly contain at least one suspect UST.

## 6.2 PAST ADJOINING PROPERTY USAGE

A summary of past uses of adjoining properties based on historical records is tabulated below:

<b>Adjoining North</b>	
<b>Year(s)</b>	<b>Interpreted Property Use</b>
1940 - Present	Bartlette Street

<b>Adjoining East</b>	
<b>Year(s)</b>	<b>Interpreted Property Use</b>
1940 - Present	S. Harvin Street

<b>Adjoining South</b>	
<b>Year(s)</b>	<b>Interpreted Property Use</b>
1940 - Present	E. Oakland Street - SW Corner is Former Spur Station

<b>Adjoining West</b>	
<b>Year(s)</b>	<b>Interpreted Property Use</b>
1940 - Present	Andrews Small Engine, S. Main Street and Former Spur Station

Emerald, Inc. did identify REC's associated with the contiguous property along the southwestern boundary.

## **7 ENVIRONMENTAL REGULATORY RECORDS REVIEW**

### **7.1 DATABASE FINDINGS**

The distribution of listed sites with respect to the property is tabulated and mapped in EDR's report, which is appended in Appendix C. The reader is referred to this table which can be found near the front of EDR's report.

EDR reported unmappable or orphan listed sites. Emerald, Inc. reviewed the information EDR provided about these sites, and did not find any evidence of these sites within a radius that could possibly have an effect on the subject site.

#### **7.1.1 SUBJECT PROPERTY**

The subject property addresses were not listed in the EDR report, other than indicative of the business or type located at a certain address.

#### **7.1.2 ADJOINING PROPERTY**

Adjoining properties were identified in the EDR report, specifically the Sanborn Fire Insurance Map from 1923 until 1962 showing the contiguous property along the southwestern boundary as the former Spur gasoline station.

#### **7.1.3 SURROUNDING VICINITY PROPERTIES**

The EDR report did identify sites within the vicinity radius.

### **7.2 OTHER REGULATORY INFORMATION**

#### **7.2.1 FREEDOM OF INFORMATION REQUESTS**

Emerald, Inc. did not submit an FOI request to the central SCDHEC office in Columbia, S.C., for the purpose of reviewing any files associated with the site due to the fact that REC's have been identified on the site with recommendations for further investigation of the soil and groundwater at or beneath the subject site.

## 8 INTERVIEWS

### 8.1 INTERVIEW PARTIES

Summary		
Name	Affiliation	Role
Regi Watts	SCDHEC - Sumter Office	Environmental Regulator

### 8.2 INTERVIEW FINDINGS

The interview with Mr. Watts did not reveal any known environmental concerns for the property itself.

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

## EXECUTIVE SUMMARY

### TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

### DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

### STANDARD ENVIRONMENTAL RECORDS

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

## EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

#### ***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 03/07/2016 has revealed that there is 1 SEMS-ARCHIVE site within approximately 0.5 miles of the target property.

#### ***Federal RCRA CORRACTS facilities list***

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 12/09/2015 has revealed that there are 2 CORRACTS sites within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

## EXECUTIVE SUMMARY

### ***Federal RCRA generators list***

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/09/2015 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

NOVA MOLECULAR SUMTE	249 SOUTH HARVIN STR	SSE 1/8 - 1/4 (0.159 mi.)	24	42

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 12/09/2015 has revealed that there are 3 RCRA-CESQG sites within approximately 0.25 miles of the target property.

### ***State- and tribal - equivalent CERCLIS***

SHWS: State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

A review of the SHWS list, as provided by EDR, and dated 01/15/2016 has revealed that there are 13 SHWS sites within approximately 1 mile of the target property.

### State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Health & Environmental Control's Leaking UST list.

A review of the LUST list, as provided by EDR, and dated 07/29/2015 has revealed that there are 22 LUST sites within approximately 0.5 miles of the target property.

## EXECUTIVE SUMMARY

### ***State and tribal institutional control / engineering control registries***

RCR: The Bureau of Land and Waste Management established this Registry to help monitor and maintain sites that have conditional remedies. A Conditional Remedy is an environmental remedy that includes certain qualifications. These qualifications are divided into two major categories: Remedies requiring Land Use Controls and Conditional No Further Actions.

A review of the RCR list, as provided by EDR, and dated 09/19/2012 has revealed that there is 1 RCR site within approximately 0.5 miles of the target property.

### **Local Lists of Hazardous waste / Contaminated Sites**

ALLSITES: The South Carolina Department of Health and Environmental Control is pleased to have the Public Record for your review. The purpose of this database is two-fold. First, it will provide to communities another form of notice of cleanup activity, allowing them to have more information about assessment and cleanup activities in their area and in the State. Second, it can assist those seeking to redevelop brownfield properties within South Carolina.

A review of the ALLSITES list, as provided by EDR, and dated 03/15/2016 has revealed that there is 1 ALLSITES site within approximately 0.5 miles of the target property.

### **Other Ascertainable Records**

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/09/2015 has revealed that there are 7 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

### EDR HIGH RISK HISTORICAL RECORDS

#### ***EDR Exclusive Records***

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
SCE AND G SUMTER MGP	238 HAUSER STREET	E 1/2 - 1 (0.694 mi.)	H51	101

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto

Environmental Interest/Information System

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System**

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AFS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System**

SC-EFIS (South Carolina - Environmental Facility Information System) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The EFIS was developed by the state of South Carolina and Maine joined their system in 2004.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

SC-EFIS (South Carolina - Environmental Facility Information System)  
integrates information on environmental facilities, permits,  
violations, enforcement actions, and compliance activities needed to  
support regulatory requirements and target environmental quality  
improvements for the water, air, solid waste, and hazardous waste  
program areas. The EFIS was developed by the state of South Carolina

and Maine joined their system in 2004.

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

**TSCA SUBMITTER**

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

**HAZARDOUS WASTE BIENNIAL REPORTER**

**AIR MINOR**

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## STANDARD ENVIRONMENTAL RECORDS

### *Federal NPL site list*

#### NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

#### Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 03/07/2016	Source: EPA
Date Data Arrived at EDR: 04/05/2016	Telephone: N/A
Date Made Active in Reports: 04/15/2016	Last EDR Contact: 04/05/2016
Number of Days to Update: 10	Next Scheduled EDR Contact: 04/18/2016
	Data Release Frequency: Quarterly

#### NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### *Federal Delisted NPL site list*

#### Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 03/07/2016	Source: EPA

	Data Release Frequency: Quarterly

### *Federal CERCLIS list*

#### FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 03/26/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 04/08/2015	Telephone: 703-603-8704
Date Made Active in Reports: 06/11/2015	Last EDR Contact: 04/08/2016
Number of Days to Update: 64	Next Scheduled EDR Contact: 07/18/2016
	Data Release Frequency: Varies

#### SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 03/07/2016	Source: EPA
Date Data Arrived at EDR: 04/05/2016	Telephone: 800-424-9346
Date Made Active in Reports: 04/15/2016	Last EDR Contact: 04/05/2016
Number of Days to Update: 10	Next Scheduled EDR Contact: 08/01/2016
	Data Release Frequency: Quarterly

### *Federal CERCLIS NFRAP site list*

#### SEMS-ARCHIVE: Superfund Enterprise Management System Archive

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 03/07/2016	Source: EPA
Date Data Arrived at EDR: 04/05/2016	Telephone: 800-424-9346
Date Made Active in Reports: 04/15/2016	Last EDR Contact: 04/05/2016
Number of Days to Update: 10	Next Scheduled EDR Contact: 08/01/2016
	Data Release Frequency: Quarterly

### ***Federal RCRA CORRACTS facilities list***

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 12/09/2015	Source: EPA
Date Data Arrived at EDR: 03/02/2016	Telephone: 800-424-9346
Date Made Active in Reports: 04/05/2016	Last EDR Contact: 03/30/2016
Number of Days to Update: 34	Next Scheduled EDR Contact: 07/11/2016

### ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/09/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/02/2016	Telephone: (404) 562-8651
Date Made Active in Reports: 04/05/2016	Last EDR Contact: 03/30/2016
Number of Days to Update: 34	Next Scheduled EDR Contact: 07/11/2016
	Data Release Frequency: Quarterly

### ***Federal RCRA generators list***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/09/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/02/2016	Telephone: (404) 562-8651
Date Made Active in Reports: 04/05/2016	Last EDR Contact: 03/30/2016
Number of Days to Update: 34	Next Scheduled EDR Contact: 07/11/2016
	Data Release Frequency: Quarterly

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/09/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/02/2016	Telephone: (404) 562-8651
Date Made Active in Reports: 04/05/2016	Last EDR Contact: 03/30/2016
Number of Days to Update: 34	Next Scheduled EDR Contact: 07/11/2016
	Data Release Frequency: Quarterly

### RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/09/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/02/2016	Telephone: (404) 562-8651
Date Made Active in Reports: 04/05/2016	Last EDR Contact: 03/30/2016
Number of Days to Update: 34	Next Scheduled EDR Contact: 07/11/2016

### ***Federal institutional controls / engineering controls registries***

#### LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 05/28/2015	Source: Department of the Navy
Date Data Arrived at EDR: 05/29/2015	Telephone: 843-820-7326
Date Made Active in Reports: 06/11/2015	Last EDR Contact: 05/16/2016
Number of Days to Update: 13	Next Scheduled EDR Contact: 08/29/2016
	Data Release Frequency: Varies

#### US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 09/10/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/11/2015	Telephone: 703-603-0695
Date Made Active in Reports: 11/03/2015	Last EDR Contact: 02/29/2016
Number of Days to Update: 53	Next Scheduled EDR Contact: 06/13/2016
	Data Release Frequency: Varies

#### US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 09/10/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/11/2015	Telephone: 703-603-0695
Date Made Active in Reports: 11/03/2015	Last EDR Contact: 02/29/2016

## **State- and tribal - equivalent CERCLIS**

SHWS: Site Assessment Section Project List

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 01/15/2016

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## *State and tribal registered storage tank lists*

### FEMA UST: Underground Storage Tank Listing

A listing of all FEMA owned underground storage tanks.

Date of Government Version: 01/01/2010	Source: FEMA
Date Data Arrived at EDR: 02/16/2010	Telephone: 202-646-5797
Date Made Active in Reports: 04/12/2010	Last EDR Contact: 04/11/2016
Number of Days to Update: 55	Next Scheduled EDR Contact: 07/25/2016
	Data Release Frequency: Varies

### UST: Comprehensive Underground Storage Tanks

Registered Underground Storage Tanks. UST's are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA) and must be registered with the state department responsible for administering the UST program. Available information varies by state program.

Date of Government Version: 02/12/2016	Source: Department of Health and Environmental Control
Date Data Arrived at EDR: 03/03/2016	Telephone: 803-896-7957
Date Made Active in Reports: 03/24/2016	Last EDR Contact: 04/25/2016
Number of Days to Update: 21	Next Scheduled EDR Contact: 08/08/2016
	Data Release Frequency: Quarterly

### AST: Aboveground Storage Tank List

Registered Aboveground Storage Tanks.

Date of Government Version: 03/25/2004	Source: Department of Health and Environmental Control
Date Data Arrived at EDR: 08/04/2004	Telephone: 803-898-4350
Date Made Active in Reports: 09/23/2004	Last EDR Contact: 03/01/2016
Number of Days to Update: 50	Next Scheduled EDR Contact: 06/13/2016
	Data Release Frequency: Varies

### INDIAN UST R1: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 1 (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont and ten Tribal Nations).

Date of Government Version: 10/20/2015	Source: EPA, Region 1
Date Data Arrived at EDR: 10/29/2015	Telephone: 617-918-1313
Date Made Active in Reports: 01/04/2016	Last EDR Contact: 04/29/2016
Number of Days to Update: 67	Next Scheduled EDR Contact: 08/08/2016
	Data Release Frequency: Varies

### INDIAN UST R10: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 10 (Alaska, Idaho, Oregon, Washington, and Tribal Nations).

Date of Government Version: 01/07/2016	Source: EPA Region 10
Date Data Arrived at EDR: 01/08/2016	Telephone: 206-553-2857
Date Made Active in Reports: 02/18/2016	Last EDR Contact: 04/29/2016
Number of Days to Update: 41	Next Scheduled EDR Contact: 08/08/2016
	Data Release Frequency: Quarterly

### INDIAN UST R9: Underground Storage Tanks on Indian Land

The Indian Underground Storage Tank (UST) database provides information about underground storage tanks on Indian land in EPA Region 9 (Arizona, California, Hawaii, Nevada, the Pacific Islands, and Tribal Nations).

Date of Government Version: 12/14/2014	Source: EPA Region 9
Date Data Arrived at EDR: 02/13/2015	Telephone: 415-972-3368
Date Made Active in Reports: 03/13/2015	Last EDR Contact: 04/27/2016
Number of Days to Update: 28	Next Scheduled EDR Contact: 08/08/2016

Number of Days to Update: 34	Next Scheduled EDR Contact: 08/08/2016
	Data Release Frequency: Semi-Annually

### ***State and tribal institutional control / engineering control registries***

#### RCR: Registry of Conditional Remedies

The Bureau of Land and Waste Management established this Registry to help monitor and maintain sites that have conditional remedies. A Conditional Remedy is an environmental remedy that includes certain qualifications. These qualifications are divided into two major categories: Remedies requiring Land Use Controls and Conditional No Further Actions.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Data Release Frequency: Varies

## AUL: Land Use Controls

The term Land Use Controls or "LUCs" encompass institutional controls, such as those involved in real estate interests, governmental permitting, zoning, public advisories, deed notices, and other legal restrictions. The term also includes restrictions on access, whether achieved by means of engineered barriers (e.g., fence or concrete pad) or by human means (e.g., the presence of security guards). Additionally, the term includes both affirmative measures to achieve the desired restrictions (e.g., night lighting of an area) and prohibitive directives (e.g., restrictions on certain types of wells for the duration of the corrective action). Considered altogether, the LUCs for a facility will provide a tool for how the property should be used in order to maintain the level of protectiveness that one or more corrective actions were designed to achieve.

Date of Government Version: 03/15/2016  
Date Data Arrived at EDR: 03/17/2016

## State and tribal voluntary cleanup sites

### VCP: Voluntary Cleanup Sites

Sites participating in the Voluntary Cleanup Program. Once staff and a non-responsible party have agreed upon an approved scope of work for a site investigation and/or remediation, the party enters into a voluntary cleanup contract. Staff oversees the cleanup efforts to ensure that activities are performed to our satisfaction. Upon completion of the negotiated work in the voluntary cleanup contract, the non-responsible party receives State Superfund liability protection.

## ADDITIONAL ENVIRONMENTAL RECORDS

### **Local Brownfield lists**

#### **US BROWNFIELDS: A Listing of Brownfields Sites**

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

### **ALLSITES: Site Assessment & Remediation Public Record Database**

The South Carolina Department of Health and Environmental Control is pleased to have the Public Record for your review. The purpose of this database is two-fold. First, it will provide to communities another form of notice of cleanup activity, allowing them to have more information about assessment and cleanup activities in their area and in the State. Second, it can assist those seeking to redevelop brownfield properties within South Carolina.

### **US CDL: Clandestine Drug Labs**

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### **Local Land Records**

#### **LIENS 2: CERCLA Lien Information**

A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

	Data Release Frequency: No Update Planned

### **Other Ascertainable Records**

#### **RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated**

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

### SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/21/2014	Telephone: 617-520-3000
Date Made Active in Reports: 06/17/2014	Last EDR Contact: 05/09/2016
Number of Days to Update: 88	Next Scheduled EDR Contact: 08/22/2016
	Data Release Frequency: Quarterly

### 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 04/22/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/03/2015	Telephone: 703-308-4044

### TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2012	Source: EPA
Date Data Arrived at EDR: 01/15/2015	Telephone: 202-260-5521
Date Made Active in Reports: 01/29/2015	Last EDR Contact: 03/24/2016
Number of Days to Update: 14	Next Scheduled EDR Contact: 07/04/2016
	Data Release Frequency: Every 4 Years

### TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2014	Source: EPA
Date Data Arrived at EDR: 11/24/2015	Telephone: 202-566-0250
Date Made Active in Reports: 04/05/2016	Last EDR Contact: 02/24/2016
Number of Days to Update: 133	Next Scheduled EDR Contact: 06/06/2016
	Data Release Frequency: Annually

### SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/2009	Source: EPA

	Data Release Frequency: Annually

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### ROD: Records Of Decision

Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 11/25/2013	Source: EPA
Date Data Arrived at EDR: 12/12/2013	Telephone: 703-416-0223
Date Made Active in Reports: 02/24/2014	Last EDR Contact: 03/08/2016
Number of Days to Update: 74	Next Scheduled EDR Contact: 06/20/2016
	Data Release Frequency: Annually

### RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 08/01/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 08/26/2015	Telephone: 202-564-8600
Date Made Active in Reports: 11/03/2015	Last EDR Contact: 04/25/2016
Number of Days to Update: 69	Next Scheduled EDR Contact: 08/08/2016
	Data Release Frequency: Varies

### RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

	Data Release Frequency: Quarterly

### COAL ASH DOE: Steam-Electric Plant Operation Data

A listing of power plants that store ash in surface ponds.

Date of Government Version: 12/31/2005	Source: Department of Energy
Date Data Arrived at EDR: 08/07/2009	Telephone: 202-586-8719
Date Made Active in Reports: 10/22/2009	Last EDR Contact: 04/15/2016
Number of Days to Update: 76	Next Scheduled EDR Contact: 07/25/2016
	Data Release Frequency: Varies

### COAL ASH EPA: Coal Combustion Residues Surface Impoundments List

A listing of coal combustion residues surface impoundments with high hazard potential ratings.

Date of Government Version: 07/01/2014	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/10/2014	Telephone: N/A
Date Made Active in Reports: 10/20/2014	Last EDR Contact: 03/11/2016
Number of Days to Update: 40	Next Scheduled EDR Contact: 06/20/2016
	Data Release Frequency: Varies

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### PCB TRANSFORMER: PCB Transformer Registration Database

The database of PCB transformer registrations that includes all PCB registration submittals.

Date of Government Version: 02/01/2011	Source: Environmental Protection Agency
Date Data Arrived at EDR: 10/19/2011	Telephone: 202-566-0517
Date Made Active in Reports: 01/10/2012	Last EDR Contact: 04/26/2016
Number of Days to Update: 83	Next Scheduled EDR Contact: 08/08/2016
	Data Release Frequency: Varies

### RADINFO: Radiation Information Database

The Radiation Information Database (RADINFO) contains information about facilities that are regulated by U.S. Environmental Protection Agency (EPA) regulations for radiation and radioactivity.

Date of Government Version: 07/07/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 07/09/2015	Telephone: 202-343-9775
Date Made Active in Reports: 09/16/2015	Last EDR Contact: 04/08/2016
Number of Days to Update: 69	Next Scheduled EDR Contact: 07/18/2016
	Data Release Frequency: Quarterly

### HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/01/2007	Telephone: 202-564-2501
Date Made Active in Reports: 04/10/2007	Last EDR Contact: 12/17/2007
Number of Days to Update: 40	Next Scheduled EDR Contact: 03/17/2008
	Data Release Frequency: No Update Planned

### HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing

A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Data Release Frequency: Varies

### UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

## US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

Date of Government Version: 10/20/2015

Number of Days to Update: 67	Next Scheduled EDR Contact: 07/04/2016
	Data Release Frequency: Varies

### AIRS: Permitted Airs Facility Listing

A listing of permitted airs facilities.

Date of Government Version: 12/31/2014	Source: Department of Health & Environmental Control
Date Data Arrived at EDR: 03/29/2016	Telephone: 803-898-4279
Date Made Active in Reports: 05/05/2016	Last EDR Contact: 02/29/2016
Number of Days to Update: 37	Next Scheduled EDR Contact: 06/13/2016
	Data Release Frequency: Varies

### COAL ASH: Coal Ash Disposal Sites

A listing of sites with coal ash ponds.

Date of Government Version: 01/20/2016	Source: Department of Health & Environmental Control
Date Data Arrived at EDR: 01/29/2016	Telephone: 803-898-3964
Date Made Active in Reports: 04/01/2016	Last EDR Contact: 03/21/2016
Number of Days to Update: 63	Next Scheduled EDR Contact: 07/04/2016
	Data Release Frequency: Varies

### DRYCLEANERS: Drycleaner Database

The Drycleaning Facility Restoration Trust Fund database is used to access, prioritize and cleanup contaminated registered drycleaning sites.

Date of Government Version: 01/01/2016	Source: Department of Health & Environmental Control
Date Data Arrived at EDR: 02/03/2016	Telephone: 803-898-3882
Date Made Active in Reports: 04/01/2016	Last EDR Contact: 05/06/2016
Number of Days to Update: 58	Next Scheduled EDR Contact: 08/15/2016
	Data Release Frequency: Varies

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## Financial Assurance 1: Financial Assurance Information Listing

Financial assurance information for solid waste facilities. Financial assurance is intended to ensure that resources are available to pay for the cost of closure, post-closure care, and corrective measures if the owner or operator of a regulated facility is unable or unwilling to pay.

Date of Government Version: 03/19/2015	Source: Department of Health & Environmental Control
Date Data Arrived at EDR: 03/24/2015	Telephone: 803-896-4067
Date Made Active in Reports: 04/07/2015	Last EDR Contact: 05/12/2016
Number of Days to Update: 14	Next Scheduled EDR Contact: 06/27/2016
	Data Release Frequency: Quarterly

## Financial Assurance 2: Financial Assurance Information Listing

Hazardous waste financial assurance information.

Date of Government Version: 02/23/2016	Source: Department of Health & Environmental Control
Date Data Arrived at EDR: 02/26/2016	Telephone: 803-898-3880
Date Made Active in Reports: 04/01/2016	Last EDR Contact: 04/11/2016
Number of Days to Update: 35	Next Scheduled EDR Contact: 06/27/2016
	Data Release Frequency: Varies

## Financial Assurance 3: Financial Assurance Information Listing

UST financial assurance information.

Date of Government Version: 03/05/2015	Source: Department of Health & Environmental Control
Date Data Arrived at EDR: 03/06/2015	Telephone: 803-898-3880
Date Made Active in Reports: 03/17/2015	Last EDR Contact: 03/01/2016
Number of Days to Update: 11	Next Scheduled EDR Contact: 06/13/2016
	Data Release Frequency: Varies

## GWCI: Groundwater Contamination Inventory

An inventory of all groundwater contamination cases in the state.

Date of Government Version: 07/01/2008	Source: Department of Health and Environmental Control
Date Data Arrived at EDR: 11/06/2008	Telephone: 803-898-3798
Date Made Active in Reports: 11/19/2008	Last EDR Contact: 03/28/2016
Number of Days to Update: 13	Next Scheduled EDR Contact: 07/11/2016
	Data Release Frequency: Annually

## NPDES: Waste Water Treatment Facilities Listing

A listing of waste water treatment facility locations.

Date of Government Version: 08/28/2015	Source: Department of Health & Environmental Control
Date Data Arrived at EDR: 09/03/2015	Telephone: 803-898-4300
Date Made Active in Reports: 11/11/2015	Last EDR Contact: 03/14/2016
Number of Days to Update: 69	Next Scheduled EDR Contact: 07/04/2016
	Data Release Frequency: Varies

## UIC: Underground Injection Wells Listing

A listing of underground injection wells locations.

Date of Government Version: 01/19/2016	Source: Department of Health & Environmental Control
Date Data Arrived at EDR: 02/10/2016	Telephone: 803-898-3799
Date Made Active in Reports: 04/01/2016	Last EDR Contact: 05/09/2016
Number of Days to Update: 51	Next Scheduled EDR Contact: 08/22/2016
	Data Release Frequency: Varies

## FUELS PROGRAM: EPA Fuels Program Registered Listing

This listing includes facilities that are registered under the Part 80 (Code of Federal Regulations) EPA Fuels Programs. All companies now are required to submit new and updated registrations.

Data Release Frequency: Quarterly

### EDR HIGH RISK HISTORICAL RECORDS

#### *EDR Exclusive Records*

##### EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oil waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Data Release Frequency: No Update Planned

##### EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

### OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

##### CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 07/30/2013  
Date Data Arrived at EDR: 08/19/2013  
Date Made Active in Reports: 10/03/2013  
Number of Days to Update: 45

**Sensitive Receptors:** There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

### AHA Hospitals:

Source: American Hospital Association, Inc.  
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

### Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services  
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

### Nursing Homes

Source: National Institutes of Health  
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

### Public Schools

Source: National Center for Education Statistics  
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

### Private Schools

Source: National Center for Education Statistics  
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

### Daycare Centers: Child Day Care List

Source: Department of Social Services  
Telephone: 803-898-7345

**Flood Zone Data:** This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

**NWI:** National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

### State Wetlands Data: Wetlands Inventory

## GEOCHECK® - PHYSICAL SETTING SOURCE ADDENDUM

### TARGET PROPERTY ADDRESS

5 OAKLAND, 130&140 HARVIN, 201 MAIN, 8&12 BARTLETTE  
5 OAKLAND, 130&140 HARVIN, 201 MAIN, 8&12 BARTLETTE  
SUMTER, SC 29150

### TARGET PROPERTY COORDINATES

Latitude (North):	33.916485 - 33° 54' 59.35"
Longitude (West):	80.341235 - 80° 20' 28.45"
Universal Transverse Mercator:	Zone 17
UTM X (Meters):	560896.9
UTM Y (Meters):	3752897.2
Elevation:	169 ft. above sea level

### USGS TOPOGRAPHIC MAP

Target Property Map:	6064399 SUMTER EAST, SC
Version Date:	2014

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

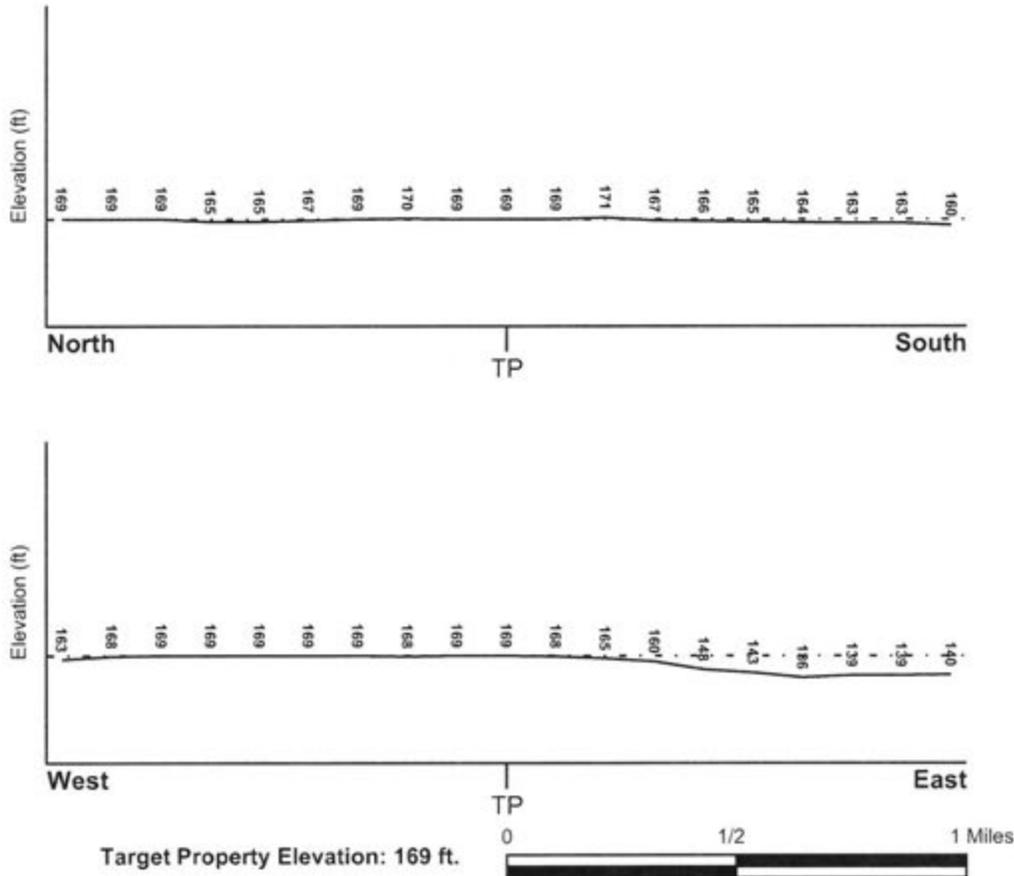

## TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General East

## SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

### FEMA FLOOD ZONE

<u>Target Property County</u> SUMTER, SC	<u>FEMA Flood Electronic Data</u> YES - refer to the Overview Map and Detail Map
Flood Plain Panel at Target Property:	45085C - FEMA DFIRM Flood data
Additional Panels in search area:	Not Reported

### NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u> SUMTER EAST	<u>NWI Electronic Data Coverage</u> YES - refer to the Overview Map and Detail Map
---	---

### HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

### AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

### GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

#### ROCK STRATIGRAPHIC UNIT

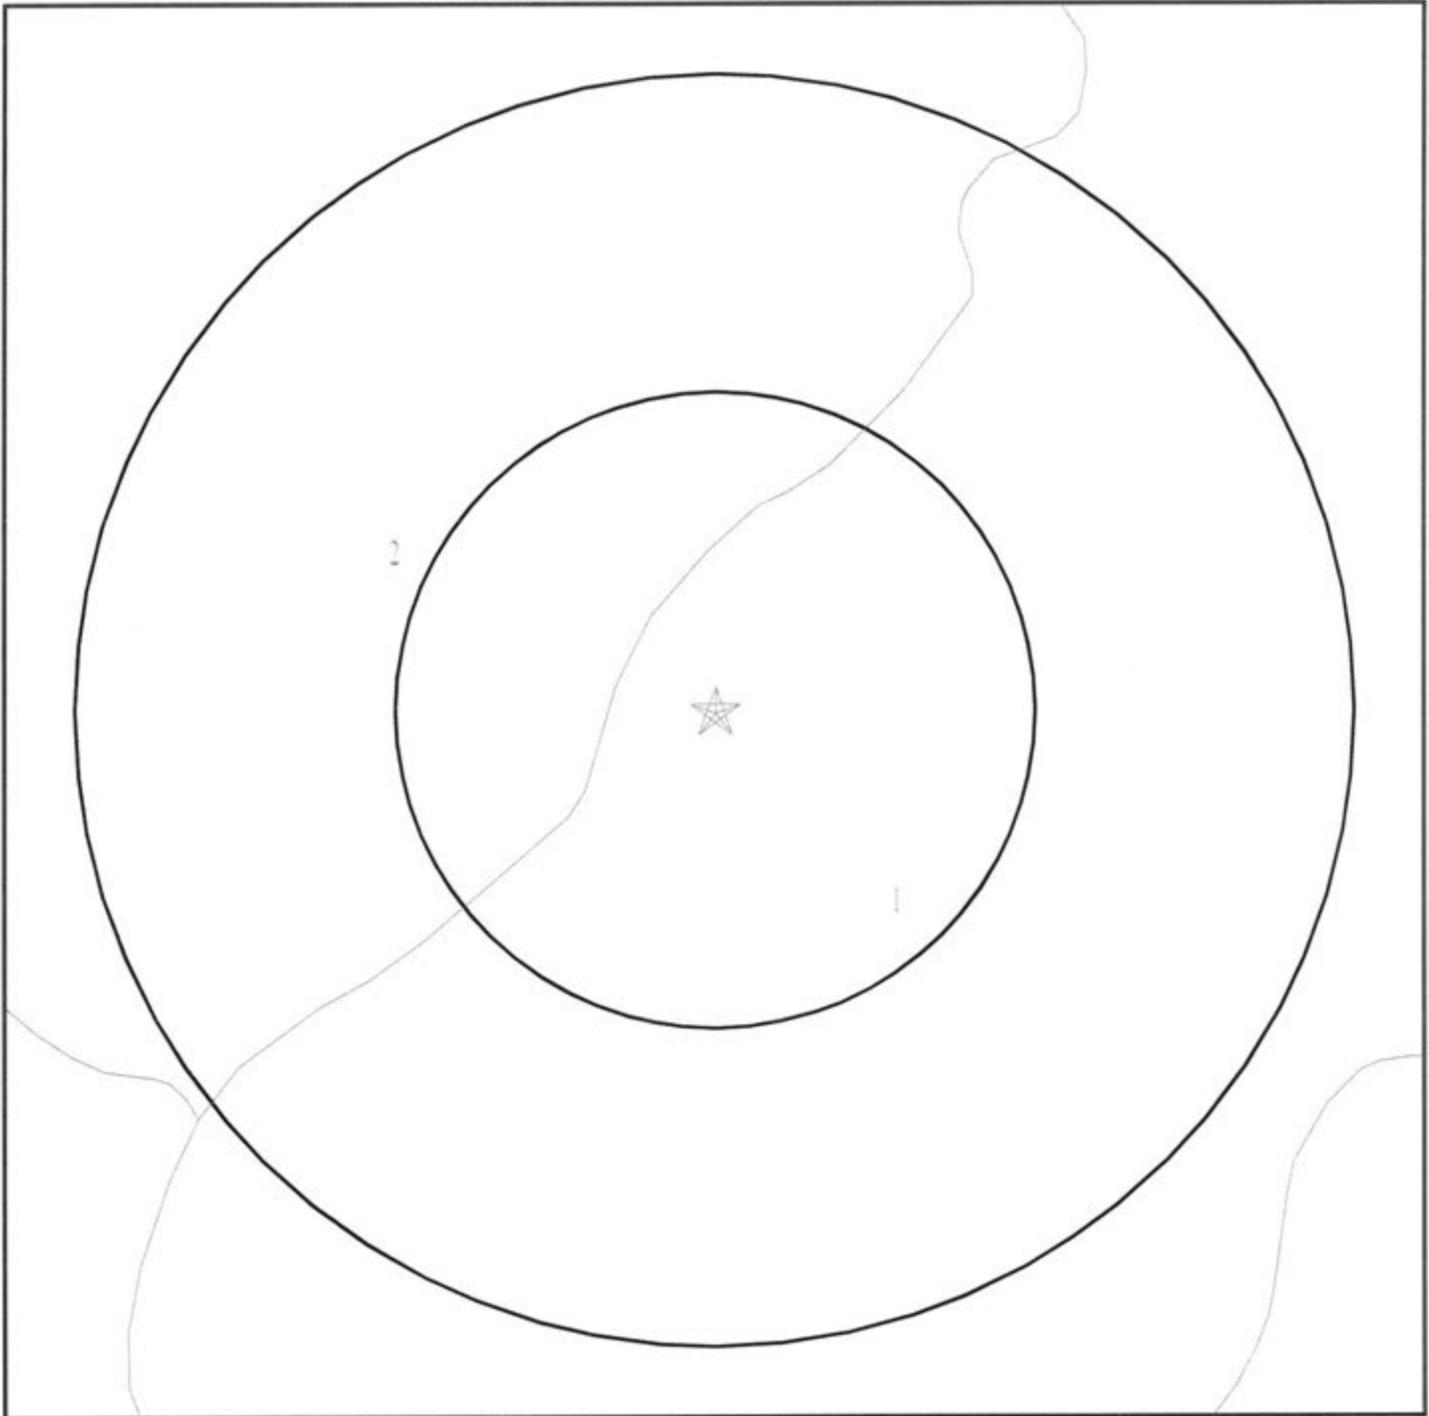

Era: Cenozoic  
System: Tertiary  
Series: Eocene Claiborne Group  
Code: Te2 (*decoded above as Era, System & Series*)

#### GEOLOGIC AGE IDENTIFICATION

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

### DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

#### Soil Map ID: 1

Soil Component Name: LYNCHBURG

Soil Surface Texture: sandy loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Somewhat poorly drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 15 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	14 inches	sandy loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 42 Min: 14	Max: 5.5 Min: 3.6
2	14 inches	51 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 14 Min: 4	Max: 5.5 Min: 3.6
3	51 inches	72 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 14 Min: 4	Max: 5.5 Min: 3.6

## GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**Soil Map ID: 2**

Soil Component Name: GOLDSBORO

Soil Surface Texture: loamy sand

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Moderately well drained

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 61 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	7 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6 Min: 3.6
2	7 inches	37 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6 Min: 3.6
3	37 inches	72 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Clayey sand.	Max: 14 Min: 4	Max: 5.5 Min: 3.6

**LOCAL / REGIONAL WATER AGENCY RECORDS**

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

## TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

## HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory

Source: Department of Natural Resources

Telephone: 803-734-9494

## HYDROGEOLOGIC INFORMATION

AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## LOCAL / REGIONAL WATER AGENCY RECORDS

### FEDERAL WATER WELLS

#### PWS: Public Water Systems

Source: EPA/Office of Drinking Water  
Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

#### PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water  
Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

#### USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

### STATE RECORDS

#### Water Well Database

Source: Department of Natural Resources  
Telephone: 803-734-6440  
Water wells in the Coastal Plain counties of South Carolina

#### Water Well Database

Source: Department of Natural Resources  
Telephone: 864-654-1671  
A listing of water wells in the Piedmont (upstate) counties.

## OTHER STATE DATABASE INFORMATION

### RADON

#### State Database: SC Radon

Source: Department of Health & Environmental Control  
Telephone: 864-241-1090  
Radon Test Results by Zip Code

#### Area Radon Information

Source: USGS  
Telephone: 703-356-4020  
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

#### EPA Radon Zones

Source: EPA  
Telephone: 703-356-4020  
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

### OTHER

#### Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

#### Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary faultlines, prepared in 1975 by the United State Geological Survey

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Emerald Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting [www.edrnet.com/sanborn](http://www.edrnet.com/sanborn).

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

## EXECUTIVE SUMMARY

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

### RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

## **APPENDIX D**

**USER QUESTIONNAIRE RESPONSES/INTERVIEW DOCUMENTATION**

CITY OF SUMMITER  
SMITH & BARTLETTE USER QUESTIONNAIRE 1 OF 2

Pursuant to ASTM E 1527-05 Appendix X.3, in order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability relief and Brownfields Revitalization Act of 2001 (the Brownfields Amendments), the user must provide the following information (if available) to the environmental professional. Failure to provide the information could result in a determination that "all appropriate inquiry" is not complete. This form represents a type of interview and as such, the user has an obligation to answer all questions in good faith to the extent of his or her actual knowledge.

1. Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?  
 No  Yes (If yes, please explain)

2. Are you aware of any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?  
 No  Yes (If yes, please explain)

3. As the user of this ESA do you have any specialized knowledge or experience related to the property or near by properties? For example, are you involved in the same line of business as the current or former occupants of the property or and adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?  
 No  Yes (If yes, please explain)

4. Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?  
 No  Yes (If yes, please explain)

NA

5. Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user (a) Do you know of the past uses of the property?; (b) Do you know of specific chemicals that are present or were once present at the property?; (c) Do you know of spills or other chemical releases that have taken place at the property?; (d) Do you know of any environmental cleanups that have taken place at the property?  
 No  Yes (If yes, please explain)

6. As the user of this ESA, based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of contamination at the property?  
 No  Yes (If yes, please explain)

DRUMS OF USED OIL AT 16 E. BARTLETTE ST.

## USER QUESTIONNAIRE 2 OF 2

### Proceedings Involving the Property

Pursuant to ASTM E 1527-05 §10.9, as the user of this ESA do you know if (1) any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the property; (2) any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property; and (3) any notices from any governmental entity regarding any possible violation or environmental laws or possible liability relating to hazardous substances or petroleum products?

No  Yes (If yes, please explain)

### Helpful Documents Checklist

Pursuant to ASTM E 1527-05 §10.9, do you know whether any of the following documents exist related to the subject property and if so, whether copies can be provided to Emerald, Inc. for review? Check all that apply.

Environmental site assessment reports

Environmental compliance audit reports

Environmental permits (for example solid waste disposal permits, hazardous waste disposal permits, wastewater permits, NPDES permits, underground injection permits)

Registrations for above or underground storage tanks

Registration for underground injection systems

Material safety data sheets

Community right-to-know plan

Risk assessments

Safety plans preparedness and prevention plans: spill prevention, countermeasure and control (SPCC) plans, etc.

Reports regarding hydrogeologic conditions on the property surrounding area

Notices or other correspondence from any governmental agency relating to past or current violations of environmental laws with respect to the property or relating to environmental liens encumbering the property

Hazardous waste generation notices or reports

Geotechnical studies

Recorded activity and land use limitations (AULs)

## RECORD OF COMMUNICATION

Project Name: Utility Billing Site Emerald, Inc. Ronny Lowder

Project No.: 216-100 Date/Time: 6/310/2016

Contact Name: Regi Watts Employer: SCDHEC

Contact Function: Regulator Phone No.: 803-778-1531

Reason for Contact: To determine if the local SCDHEC office had any records regarding the site addresses.

Contact Results: Mr. Watts, who has worked for the local office for 21 years, said that they do not have any records for that area of S. Main Street regarding any environmental issues or visits to any buildings formerly on that site.

## **EXECUTIVE SUMMARY**

Emerald, Inc. is a full-service environmental firm serving customers throughout the Southeast. We provide a broad spectrum of environmental services from liability assessments and regulatory compliance audits to risk analysis and client representation before regulatory agencies. Emerald, Inc. is a SCDHEC Class I certified site rehabilitation contractor, a SCDHEC Class I certified contractor for the Drycleaning Restoration Trust Fund, an approved company to conduct environmental assessments for the South Carolina State Engineer's office, plus Emerald, Inc. is an approved HUBZone small business concern.

The firm was incorporated in April 1990 by a group of professionals who had over fifty years combined experience in environmental affairs. In the past twenty years, Emerald, Inc. has increased its team of professionals to include a registered professional geologist, registered professional engineer, and a certified hazardous materials manager. Our broad spectrum of experience gives our clients assurance that all the ramifications of environmental decisions will be reviewed, from regulatory compliance to bottom-line costs.

We know how to deal with sensitive public relations, and we handle our clients' work with complete confidentiality. Emerald, Inc. stands ready to address virtually all of your environmental needs in a professional, timely and cost-effective manner.

## **PROFESSIONAL RESUME**

**RONNY L. LOWDER**  
**President - Emerald, Inc.**

### **Relevant Experience**

Mr. Lowder has extensive experience in the environmental and business field having been vice-president of a major hazardous waste recycling firm for sixteen years prior to starting Emerald, Inc. in 1990. He was instrumental in all facets of the business from start-up to development to regulatory compliance to bottom line responsibility. In addition to waste recycling, the company had affiliations with others involved in chemical and petroleum distribution as well as government contracts.

During the last twenty-one years, Mr. Lowder has conducted over seven hundred environmental assessments and audits for business and industry ranging from property transactions to regulatory compliance. In addition, he has conducted on-site training seminars for companies who have to train personnel involved in Hazardous Waste and OSHA Regulations.

### **Specialized Training**

- Environmental and Hazardous Waste
- Certified Building Inspector and Management Planner for Asbestos
- Registered Environmental Property Assessor (REPA)
- Certified Hazardous Materials Manager (CHMM)

### **Publications**

"Environmental Liabilities in Real Estate", South Carolina Realtor, April 1991.

### **Presentations**

"Environmental Site Assessments", Central Carolina Technical College

### **Education**

1973 BA Economics/Accounting - Clemson University
