

Inclement Weather Policy

City of Sumter Aquatics Center

In the event of inclement or unfavorable weather conditions, the City of Sumter Aquatics Center will close the pool to all activities in the effort to prioritize safety for both pool patrons and AC staff members.

Those conditions include:

- Lightning within a 10 mile radius of the pool. For every lightning strike within 10 miles, the pool will delay reopening by 30 minutes.
- Heavy rain that prevents lifeguard visibility.

In the event of ongoing inclement weather, the facility will be forced to close for the day. The AC Guest Services staff will provide pool patrons with a Rainy Day Pass if the closure occurs before 4:00 PM.

Please direct any questions regarding the City of Sumter Aquatics Center's Inclement Weather Policy to the AC Leadership Team.

We thank you for your support & understanding!
