## RZ-26-03, 1420 Pinewood Rd. (County)

### I. THE REQUEST

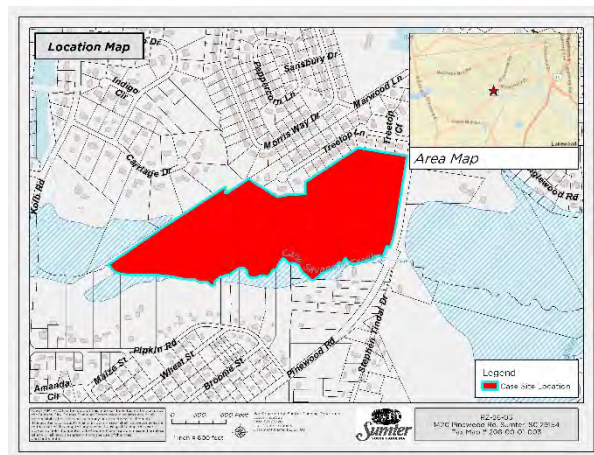

<b>Applicant:</b>	Michael C. Carson
<b>Status of the Applicant:</b>	Property Owner
<b>Request:</b>	A request to rezone a +/- 60.56-acres from Residential-15 (R-15) to Agricultural Conservation (AC).
<b>County Council District:</b>	District 3
<b>Location:</b>	1420 Pinewood Rd.
<b>Size of Property:</b>	+/- 60.56-acres
<b>Present Use/Zoning:</b>	Specialty Contractor/ Residential-15 (R-15)
<b>Proposed Use/Zoning:</b>	Specialty Contractor / AC
<b>Tax Map Reference:</b>	208-00-01-003
<b>Adjacent Property Land Use and Zoning:</b>	North: Residential / R-15 South: Residential / General Residential (GR) East: Commercial / GC West: Residential & Undeveloped / R-15

### II. BACKGROUND

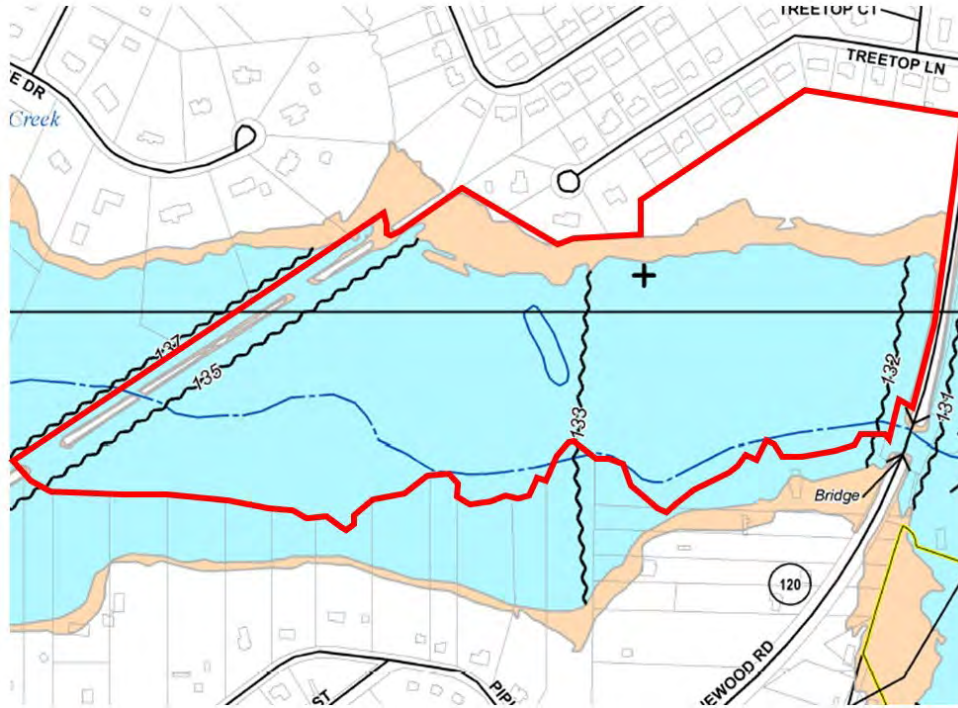

This is a request to rezone a +/- 60.56-acre parcel (TMS# 208-00-01-003) from Residential-15 (R-15) to Agricultural Conservation (AC).

The subject property is shown in red on the location map to the right. The property is located on the west of Pinewood Rd, just south of the intersection of Pinewood Rd. and Treetop Ln.

The property is significantly impacted by the Cane Savannah Creek tributary, with approximately 77% of the parcel area being within a Zone AE special flood hazard area (SFHA). The remaining portion of the property, outside of the SFHA, has direct frontage on Pinewood Rd. This area of the property is generally

characterized as residential, with single family detached homes being the prominent existing development type.

Per discussions with staff, the applicant is requesting this rezoning in order to establish a specialty contractor business on the portion of land outside of the SFHA. The applicant has taken steps to develop the property in the absence of required approvals, including the establishment of a metal storage building. The applicant's plans for the property were determined via meetings held to address a notice of zoning violation issued to the applicant concerning this property.

## Zoning

The property is currently zone R-15. Property to the north, west, and east is also zoned R-15. Property to the south is zoned General Residential (GR).

The purpose of the R-15 district is to recognize the essential suburban living character of significant portions of Sumter County where low and medium density single-family residential development is the predominant living environment of the existing and future population.

The purpose of the proposed AC district is to protect areas of the county which are presently rural or agricultural in character and use, and are uniquely suited to agricultural use. Where urban development is permitted within the district, strict quality standards should be required.

### ***Permitted and Conditional Uses:***

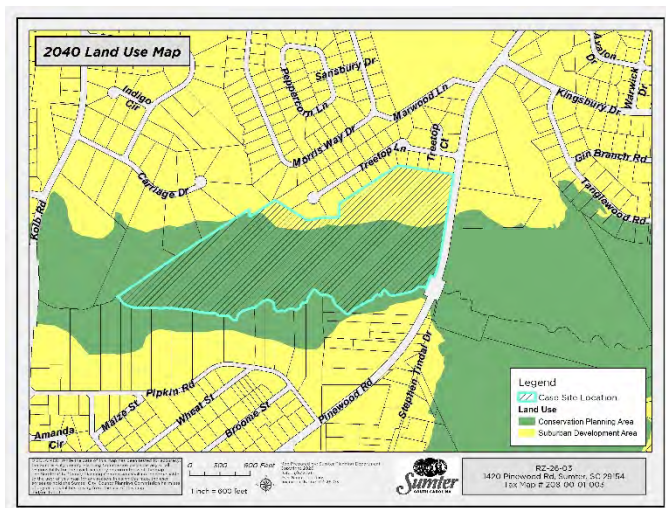

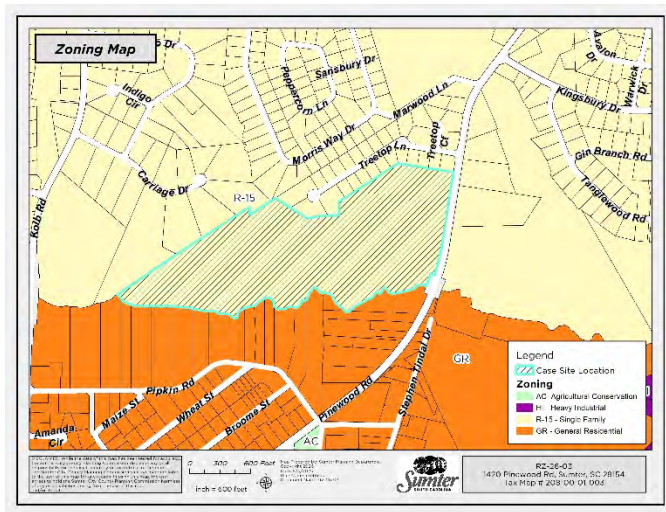

Approval of this request does not bind the applicant to establish any future use identified as part of the rezoning process. Rather, the applicant could establish any use allowed in the requested zoning district, as indicated by the use table found at *Article 3, Exhibit 5* of the Ordinance, in accordance with the use review process indicated and all applicable Ordinance requirements. This use table is attached to this report as Exhibit 1. Uses with a “P” are allowed by-right, uses with a “C” require conditional use approval, uses with an “S” require special exception approval by the Sumter City-County Board of Zoning Appeals (BZA), and uses with no letter are not permitted.

The applicant is seeking the rezoning to establish a specialty contractor use (concrete) on the property. Pursuant to the Ordinance, this requires Conditional Use-500 (C-500) approval. Thus, in addition demonstrating the proposed use will satisfy the conditional use criteria found in *Article 5.b.1.a – 5.b.1.f.*, the applicant must also obtain consent signatures for the use from property owners within 500 ft. of the proposed use area.

## III. COMPATIBILITY WITH THE 2040 COMPREHENSIVE PLAN

The Sumter 2040 Comprehensive Plan shows that the property is primarily influenced by the Conservation Planning Area and the Suburban Development Planning Area.

The Conservation Planning Area is intended to protect and preserve environmentally sensitive areas and prime agricultural lands from residential, industrial, and commercial encroachment.

Sumter 2040 Comprehensive Plan policies support this request.

The primary goal of the Suburban Development Planning Area is to scrutinize and manage existing development patterns, foster intentional mixed-use development, and identify new commercial and industrial locations where form and design are a focus.

The Comprehensive Plan supports protection and preservation of land within the Conservation Planning Area. The AC district somewhat achieves this by significantly reducing the amount of residential density that could potentially be established from 2.9 units per acre to 1 unit per acre. Considering that the portion of the property within the Conservation Planning Area is also within the SFHA, the AC district aligns more with the Conservation Planning Area than the R-15 district does. The trade-off between R-15 zoning vs. AC zoning, with respect to the Conservation Planning Area, is that the AC allows a number of non-residential uses. However, most of the non-residential uses that could be established in the AC district require conditional use approval in some shape, form, or fashion. Development within the SHFA would not likely satisfy the conditional use criteria in *Article 5.b.1.a – 5.b.1.f* of the Ordinance that pertain to site suitability.

The Comprehensive Plan supports the management of existing development patterns and the identification of new commercial and industrial locations where form and design are focus in the Suburban Planning Area. The portion of the property outside of the SFHA that is influenced by this planning area has direct frontage onto a minor arterial roadway where traffic counts have increased in recent years. The establishment of a small business that has sufficient screening and other safeguards in place to mitigate external impact could align with Suburban Planning Area policies. Due to low density residential character of the surrounding area, the AC district is best suited in this context to mitigate non-residential use impacts due applicable conditional use requirements.

#### **IV. TRANSPORTATION REVIEW**

The site has direct frontage onto Pinewood Rd, which is owned and maintained by SCDOT, and is functionally classified as a Minor Arterial Roadway. Based trip data collected by SCDOT (Station ID# 43-0249), the section of Pinewood Rd. in front of the property has a 2025 annual average daily trip (AADT) of 7,100 trips. It is noted that this an approximately 12% increase in traffic on this roadway compared to the 2023 AADT of 6,200 trips.

All site development will have its transportation impacts fully evaluated at the time of site plan approval.

#### **V. STAFF RECOMMENDATION**

Staff is supportive of this request for the following reasons:

- AC zoning reduces the amount of potential residential development in the SFHA.
- AC zoning allows certain non-residential uses via a conditional use review process. Conditional use review allows for increased flexibility in requiring mitigation for external impacts. For instance, increased screening adjacent to residential uses could be required as part the use review if determined such improvements were needed to meet applicable criteria.

- The property is not suited for R-15 scale major subdivision development, including the portion outside of the SFHA. As such, residential subdivision of the property under the current zoning could lead to a number of new residential driveway encroachments onto Pinewood Rd.

## **VI. DRAFT MOTION**

- 1) I move that the Planning Commission recommend **approval** of RZ-26-03, rezoning a +/- 60.56-acre parcel from Residential-15 (R-15) to Agricultural Conservation (AC).
- 2) I move that the Planning Commission recommend **denial** of RZ-26-03, rezoning a +/- 60.56-acre acre parcel from Residential-15 (R-15) to Agricultural Conservation (AC).
- 3) I move an alternate motion.

## **VII. PLANNING COMMISSION – May 27, 2026**
