

Sumter City-County Planning Commission

October 28, 2026

RZ-26-10 3910, 3920 Camden Hwy. (County)

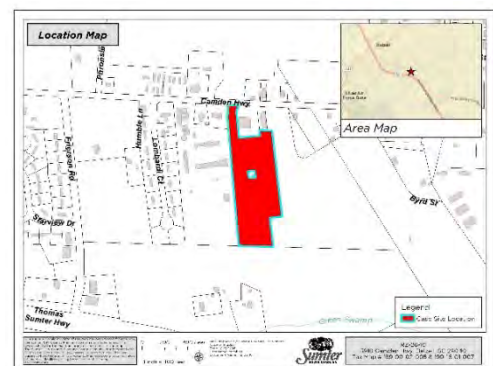

I. THE REQUEST

Applicant:	Thomas Edmunds; Dalzell Water District of South Carolina
Status of the Applicant:	Authorized agent for property owner; Property Owner
Request:	A request to rezone three parcels totaling +/- 9.01 acres of land from a combination of Limited Commercial (LC) and Residential-9 (R-9) to Light Industrial-Warehouse (LI-W).
County Council District	District 2
Location:	3910 and 3920 Camden Hwy.
Size of Property:	+/- 9.01 acres
Present Use/Zoning:	Former Cotton Oil Mill, minor public utility support facility / LC and R-9
Proposed Use of Property:	Workshop and Parking for Trucking Company, minor public utility support facility / Light-Industrial-Warehouse (LI-W)
Tax Map Reference:	189-00-02-005, 190-16-01-007, 189-00-02-036
Adjacent Property Land Use and Zoning:	North – Commercial / LC South – Single Residence / R-9 East – Vacant / R-9 and LC West – Agricultural / R-9 and LC

II. BACKGROUND

This is a request to rezone three parcels totaling +/- 9.01 acres from a combination of Limited Commercial (LC) and Residential-9 (R-9) to Light Industrial-Warehouse (LI-W). The subject property is shown in red on the location map to the right.

The property is the location of a former cotton oil mill and contains multiple structures pertaining to this

business and any other later businesses on the property, as applicable. The applicant has indicated that long-term plans for the property include a workshop and parking area for a local trucking company. The current LC/R-9 zoning designation does not permit the establishment of this business type on the property.

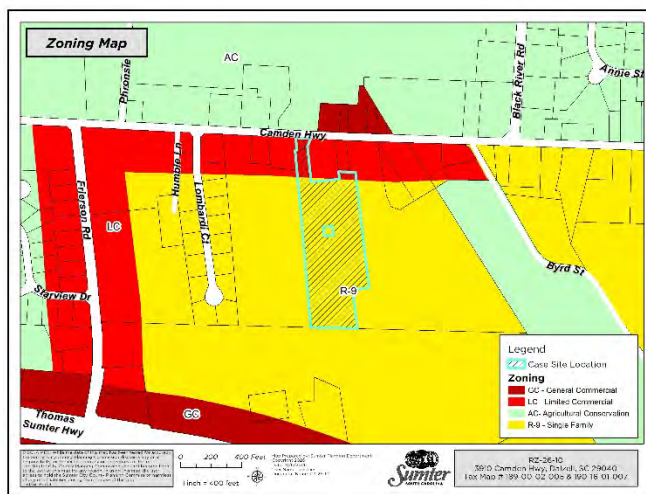

Additionally, the Dalzell Water District of South Carolina owns a 0.08 acre parcel inside TMS #189-00-02-005 that serves as a well site for the water utility. This parcel is proposed to be included in the LI-W zoning reclassification. As a minor support facility for a public utility or public service company, the Dalzell Water District's property is subject only to the site criteria outlined in *Article 3.w.1.* of the Ordinance. These criteria apply regardless of zoning district. TMS #189-00-02-036 is included in the rezoning request to ensure that, if the rezoning is successful, that there is not a separate 0.08 acre free-standing zoning district.

The property, is located on the south side of Camden Hwy. between Byrd St. and Lombardi Ct. in the Dalzell area of Sumter County.

Zoning

The property is currently split zoned, with the front 0.89 acres of the site zoned Limited Commercial (LC) and the remaining 8.12 acres of the property zoned Residential-9 (R-9). The split zoning is the result of a strip commercial zoning methodology applied to a number of County corridors when zoning was established County-wide.

The purpose of the LC district is to accommodate commercial development along major streets, while promoting land use compatibility by limiting the type and conditions of development.

The purpose of the R-9 district is to recognize the essential suburban living character of significant portions of Sumter County where low and medium density single- family residential development is the predominant living environment of the existing and future population.

The purpose of the LI-W district is to accommodate wholesaling, distribution, storage, processing and light manufacturing in an environment suited to such uses and operations while promoting land use compatibility both within and beyond the boundaries of such districts.

Another key zoning characteristic of the site is that the entire site lies within Accident Potential Zone 2 Northeast (APZ-2NE) as well as the Shaw Noise Attenuation overlays. The APZ strictly limits the pattern of development as noted in *Article 3.r.: Airfield Compatibility Districts (ACD) of the Sumter County Zoning and Development Standards Ordinance*. Uses compatible in the APZ are only compatible if they do not result in a large concentration of people. A large concentration of people is defined as a gathering of individuals in an area that would result in an average density of greater than 25 people per acre per hour during a 24 hour period, or a single event that would result in the gathering of 50 persons per acre at any time.

Figure 1 – Subject Site with Military Protection Area and APZ-2NE Identified

The applicant is requesting a rezoning to allow for the light industrial-warehouse use of an existing, vacant commercial site on the property for a commercial trucking company. This use is not permitted in the R-9 district (current zoning). The use is allowed in the LI-W district (proposed zoning), subject to the concentration of people restrictions found in *Article 3, Exhibit 7 (Airfield Compatibility District (ACD) Use Regulations)*.

The site's existing development (former cotton oil mill) on the site is considered discontinued in accordance with *Article 6.a.2.b.2.*, and use of any of the site's existing structures or developed areas is subject to the County's adopted development standards. Several buildings on the site are incapable of complying with current R-9 setback requirements as well as proposed LI-W setback requirements, which would require 100 ft. side and rear building setbacks.

The LI-W district also requires a minimum lot width of 100 ft., minimum depth of 250 ft., and minimum lot area of 1.0 acre. While the subject site has over 250 ft. of depth and is larger than 1.0 acre, the property has +/- 95 linear feet of frontage on Camden Hwy. If rezoned to LI-W, the site would be considered a nonconforming lot of record per *Article 6.d.1. (nonconforming lots of record)*. It is important to note that in terms of development potential for the site within existing development standards, the property is a flag lot that widens to +/- 388 ft.

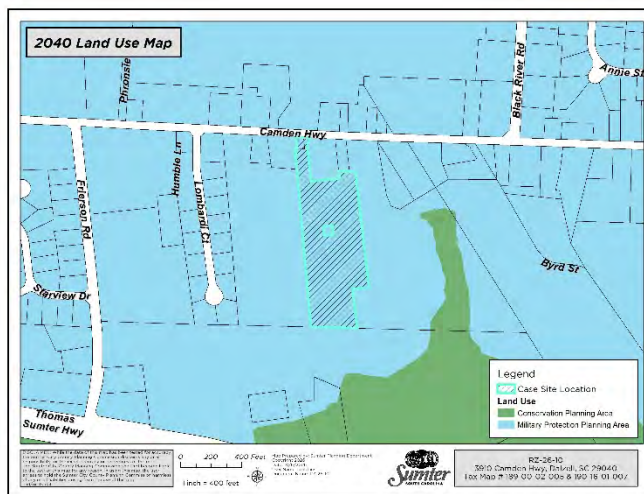

Permitted and Conditional Uses:

Approval of this request does not bind the applicant to establish any future use identified as part of the rezoning process. Rather, the applicant could establish uses allowed in the requested zoning district, as indicated by the use table found at *Article 3, Exhibit 5* of the Ordinance, in accordance with the use review process indicated and all applicable Ordinance requirements. Uses with a "P" are allowed by-right, uses with a "C" require conditional use approval, uses with an "S" require special exception approval by the Sumter City-County Board of Zoning Appeals (BZA), and uses with no letter are not permitted.

Uses permitted by *Article 3, Exhibit 5* are further restricted by *Article 3, Exhibit 7*, which specifies the use types that are allowed in APZ-2NE. Uses allowed in APZ-2NE are compatible only if they do not result in a large concentration of people.

III. COMPATIBILITY WITH THE 2040 COMPREHENSIVE PLAN

The Sumter 2040 Comprehensive Plan places the subject site in the Military Protection Planning Area. This future land use designation is intended to protect Shaw AFB and Poinsett Electronic Combat Range from encroachment of incompatible land uses and reduce the accident and noise potential to citizens in areas adjacent to these two critical military installations. Great care should be taken in evaluating any land use application in this planning area as well as adjacent and surrounding planning areas.

Specific Military Protection Planning Area policies relevant to this request include the following:

- The County supports commercial, agricultural, and industrial development in this area of a type which significantly limits the concentration of people.
- Existing residential zoning districts which are in clear conflict with these policies will be reviewed for potential rezoning implementation.

Sumter 2040 Comprehensive Plan policies support this request.

IV. TRANSPORTATION REVIEW

The property has +/- 95 linear feet of direct frontage on Camden Hwy (S-1342), an SCDOT owned and maintain roadway. The segment of Camden Hwy is a paved two-lane road functionally classified as a Major Collector Roadway. The estimated AADT on Camden Hwy in the vicinity of the site is ~2,700 daily trips based on counts collected from UrbanSDK Analytics (segment #880576137).

All site development will have its transportation impacts fully evaluated at the time of site plan approval.

V. STAFF RECOMMENDATION

The property has direct frontage on a major collector road and is located on a section of Camden Hwy. where land use characteristics are primarily commercial, low density residential, and

agricultural in nature. Rezoning this property from R-9 and LC to LI-W is consistent with the policies set forth in the Military Protection Planning Area and Airfield Compatibility Overlay District regulations.

All proposed use of existing structures on the site is subject to granting of setback variance(s) by the Sumter City-County Board of Zoning Appeals.

Staff recommends **approval** for the rezoning to Light Industrial-Warehouse (LI-W),

VI. DRAFT MOTION

- 1) I move that the Planning Commission recommend **approval** of RZ-26-10, rezoning +/- 9.01 acres (TMS# 189-00-02-005, 190-16-01-007, and 189-00-02-036) from Limited Commercial (LC) and Residential-9 (R-9) to Light Industrial-Warehouse (LI-W).
- 2) I move that the Planning Commission recommend **denial** of RZ-26-10, rezoning +/- 9.01 acres (TMS# 189-00-02-005, 190-16-01-007, and 189-00-02-036) from Limited Commercial (LC) and Residential-9 (R-9) to Light Industrial-Warehouse (LI-W).
- 3) I move an alternate motion.

VII. PLANNING COMMISSION – October 28, 2026
