

ARTICLE THREE

ZONING AND DEVELOPMENT DISTRICT REGULATIONS

SECTION A: GENERAL

3.a.1. No building, structure, parking lot, or land shall hereafter be used and no building, structure, parking lot or part thereof shall be erected, reconstructed, converted, enlarged, moved, or structurally altered unless in compliance with applicable district regulations set forth in this Ordinance.

SECTION B: R-15 AND R-9 LARGE AND MEDIUM SINGLE-FAMILY LOT RESIDENTIAL DISTRICTS

3.b.1. Purpose: The purpose of these two (2) districts is to recognize the essential suburban living character of significant portions of the City and County of Sumter where low and medium density single-family residential development is the predominant living environment of the existing and future population. Also, changing patterns of work and home environments create incentives to view the single-family dwelling as a center of work and residential living activities.

3.b.2. Permitted Uses: Within the R-15 and R-9 Districts a building, structure or premise shall be used only for the following purpose:

- a. Dwelling, single-family detached, excluding mobile, or manufactured homes;
- b. Group homes intended to exclusively serve individuals with protected characteristics under the Federal Fair Housing Act and to exclusively serve those described in S.C. Code Section 6-29-770 (E) through (H), as further defined and described in Article Ten of this Ordinance in conjunction with the supplemental regulations outlined in Article Four, Section P of this Ordinance;
- c. Horticulture, agriculture, and livestock specialties, with SIC classifications 01 & 02;
- d. Neighborhood, community parks, and similar uses;
- e. Accessory uses such as, bathhouses, cabanas, non-commercial greenhouses, private garages and carports, storage buildings, swimming pools, tool sheds & work shops, and home occupations except home day care;
- f. Signs for which a permit is not required, together with restrictions governing the use of signs in Article Eight, Section H.
- g. Accessory Apartments subject to the development criteria established in Section 4.g.2.

3.b.3. Conditional Uses: Review and approval by the Staff of the Sumter City-County Planning Commission in accordance with 5.a.3. shall be a prerequisite to the issuance of a building permit for any conditional use identified below.

- a. Single-family attached dwelling;
- b. Townhouse and patio homes (subject to the provisions in the R-6 district);
- c. Community Centers;
- d. Golf courses - public and private, with SIC classifications 7992 & 7997;
- e. Swimming & Tennis Clubs, with SIC classification 7997;
- f. Country Clubs, with SIC classification 7997;
- g. Elementary & secondary schools, with SIC classifications 82 & 821;
- h. Libraries, with SIC classification 823;
- i. Museums & Art Galleries, with SIC classification 841;
- j. Arboreta & Botanical or Zoological Gardens, with SIC classification 842;
- k. Civic, Social, & Fraternal Associations (only in R-9), with SIC classification 864;
- l. Religious organizations, with SIC classification 866;
- m. Public safety facilities or buildings, with SIC classification 922;
- n. Ash gardens (only allowed adjacent to a religious or consecrated facility);
- o. Cemeteries (only in R-9);
- p. Child Day Care (only in R-9), SIC classification 832 & 835;
- q. Colleges and Universities, public and private, with SIC 82
- r. Home Day Care (R-15 and R-9) as Home Occupation – See Section 5.b.1.g

3.b.4. Special Exceptions: Review and approval by the Sumter Zoning Board of Appeals in accordance with Article 5, Section B shall be a requirement before any uses listed below are allowed in these districts:

- a. Communication Towers, SIC Code 48
- b. Public Utilities and Infrastructure, SIC Code 49

- a. **Lot Requirement (Minimum)**

Minimum lot width requirement in the AC – 10 District is 300.

Depth: There is no minimum lot depth requirement in the AC – 10 District

Lot Area: 10 acres minimum

- b. **Yard and Building Set Back Requirements (Minimum)**

	<u>Front Yard Setback</u>
From local/collector Streets	35 ft.
From all other type Streets	45 ft.

	<u>Side Yard Setback</u>
For Residential Uses	50 ft.
For Non-Residential Uses	50 ft.

	<u>Rear Yard Setback</u>
From abutting Residential Districts	50 ft.
From Non-Residential Districts	50 ft.

c. **Building Requirements** **(Maximum)**

Building Height	35 ft.
Impervious Surface Ratio	10%
Residential Density (Gross Acreage)	0.1
Floor Area Ratio (Non-residential)	0.15

- d. **Off-Street Parking:** Off-street parking requirements for uses permitted herein or conditionally allowed are established in Article Eight, Section I

Warning Notice: A statement must be placed on the final plat indicating the seller or designee will inform the buyer prior to purchasing a lot within or adjacent to this district as follows: “Farming activities may occur on adjacent parcels that may create disturbing odors and noise. Livestock and poultry (make noises, cross property lines, smell, cause insects), organic pesticides (manure and compost) and inorganic fertilizer (smell, cross property lines, and can temporarily affect air and water quality), hours of operation (early morning and late night activities occur involving heavy machinery and noisy equipment). In addition, we understand the following: normal farming activities create situations deems nuisance by individuals not familiar with rural living, no additional liabilities are placed on the farmer; he has no obligation to accommodate our decision to move adjacent to his farm, and no county laws or ordinance exist to assist us in having these issues stopped.”

SECTION P: PLANNED DEVELOPMENT (PD) DISTRICT

3.p.1. Purpose: The intent of the Planned Development District is to encourage flexibility in the development of land in order to promote its appropriate use; to improve the design, character and quality of new development; to facilitate the provision of streets and utilities; and to preserve the natural and scenic features of open space. The principal feature of a Planned Development is to accommodate mixed uses.

3.p.2. Area and Ownership: In order to qualify as a Planned Development District a project request shall meet the following requirements:

- a. The site shall be in single ownership or control, or if in several ownerships, the application for amendment to the Zoning Ordinance shall be filed jointly by all of the owners.

3.p.3. Map Designation: A PD District may be established on the Official Zoning Map for the City or County of Sumter in the same manner and in the same form prescribed in Article One, Section T for other zoning districts. The general development plan and administrative review requirements of this section shall not be required for a map amendment. However, such requirements and all additional requirements of this section and Article One, Section T shall be addressed prior to the issuance of a building or development permit.

3.p.4. Planning Requirements: A General Development Plan shall be submitted as a prerequisite to the consideration of all multi-phase development projects. In addition to this requirement, a detailed site plan or subdivision plat (preliminary and final) shall be required prior to a request for a building or development permit. The requirements are specified in Article Seven, Section F, 7.f.3.c.

3.p.5. Permitted Uses: Any use proposed by the developer and considered by the Planning Commission as being compatible to other nearby uses within and beyond the proposed PD District may be permitted in such district, upon approval of the Sumter City-County Planning Commission and the City or County Councils of Sumter. A listing of proposed uses including type and number of dwelling units within a particular PD District shall be adopted as part of the regulations applying to that District. After approval by the Planning Commission and the City or County Council, the list of permitted uses (or portion thereof) shall be adopted as part of the regulations applying to that particular PD District. Thereafter, the uses permitted in the District shall be restricted to those listed, approved and adopted.

3.p.6. Private Streets: Private streets may be permitted in an approved PD District, provided such streets meet the design and construction standards for public streets as required in Article Eight, Section D, Guidelines for Utility, Roadway, and Drainage Construction, and approved by the Engineering Department for the City or County of Sumter.

3.p.7. General Design Criteria and Development Standards:

- a. Overall site design shall be harmonious in terms of landscaping, enclosure of principal and accessory uses, sizes of structures, streets and street patterns, and use relationships.

- b. To encourage the use of this district and permit flexibility in urban form, the development standards are set forth as parameters. The following are used as a guideline beyond which development flexibility is not permitted. The guidelines are applicable to the aggregate project site, not to individual parcels or buildings. However, when the total project is completed, the defined items in this section shall have been achieved, unless a variance on any particular criteria is granted by the Planning Commission in writing and recorded in the minutes of the Planning Commission.

Development Standards

Maximum Height	45 feet, except otherwise permitted by the Comprehensive Land Use Plan.
Maximum Density	16 residential units per gross acre
Required Open Space	25 percent of project area*
Maximum Imperious Surface Ratio	60 percent of project area
Front Property Line Setback	40 feet
Other Property Line Setback	30 feet from residential district 10 feet from all other districts

* Street R-O-Ws which provide street trees, sidewalks and landscaped areas may count the accumulated acreage therein to help off-set the open space requirements listed in 3.o.7.b. Notwithstanding this provision, the open space percentage shall not fall below 25 percent.

- c. Parking requirements for each PD District shall comply with the requirements of Article Eight, Section I. Areas designated for parking shall be physically separated from public streets by suitable barriers against unchannelled motor vehicle ingress and egress. All uses should be located at least fifty (50 ft.) feet from the intersection of any street line and shall be designated in a manner conducive to safe ingress and egress. Access points to public streets shall be no less than three hundred (300 ft.) feet apart.
- d. Landscaping and bufferyards between uses in this district and adjacent uses shall meet the minimum requirements for and between such uses prescribed by Article Nine. Landscaping and bufferyards may be required by the Sumter City-County Planning Commission between uses within any PD District.

3.p.8. Administrative Procedures:

- a. **Application Stage:** An applicant or owner shall submit his/her plans twenty-two (22) days prior to a regular scheduled meeting of the Sumter City-County Planning Commission. The staff shall review the proposal for compliance and completeness

with the Comprehensive Plan and the regulations herein. The applicants are strongly encouraged to coordinate their entire request with the staff at least 60 days prior to the Planning Commission meeting. Due to the potential complexity of Planned Developments, a recommendation for denial will be forwarded to the Planning Commission and Council if all required items are not submitted by the twenty-two (22) day suspense.

During such study, the applicant shall be notified of any discrepancies, and advised of the willingness of the staff to confer with the applicant for the purpose of assisting in bringing the material submitted into conformity with the requirements of this Ordinance or the Comprehensive Plan.

In the course of such conferences any recommendation for change shall be recorded in writing, with reasons cited, and shall then become part of the record in the application process. Applicants shall indicate, in writing, their disagreements and reasons and such response by the applicant shall be included in the record.

At the conclusion of the review stage, the planning staff shall report to the Planning Commission as to:

1. The type of PD proposed, physical characteristics of the land, relation of the proposed development to the surrounding areas and existing and probable future development;
 2. The relationship of the PD proposed to major roads, utilities and other facilities and services;
 3. Adequacy of evidence of unified control and suitability of any proposed agreements, contracts, deed restrictions, sureties, dedications, contributions, guarantees, or other instruments, or the need for such instruments, or for amendments in those proposed;
 4. The suitability of plans proposed, or the desirability of amendments, with reasons therefore;
 5. Desirable specific modifications in regulations or the Comprehensive Plan as applicable in a particular case, based on determinations that such modifications are necessary or justified in the particular case by demonstrating that the public purpose of the PD District or other regulations would be met to at least an equivalent degree by the proposal of the applicant. Based on such findings, the planning staff shall recommend approval of the PD amendment as proposed, approval conditioned on specific stated modifications, or disapproval, with recorded reasons therefore.
- b. **Review Stage:** After the sixty (60) day period for the PD subdivision or site plan application process is concluded, the Planning Commission shall have thirty (30) days from the Planning Commission meeting, at which the PD application is considered, to prepare a report and make a recommendation to the City or County Councils on a PD application. In making its report, the Planning Commission should consider the following factors:

1. The relationship of the request to the Sumter 2030 Comprehensive Plan;
 2. Whether the request violates or supports the Plan;
 3. Whether the permitted uses would be appropriate in the area concerned;
 4. Whether adequate public facilities such as roads, water & sewer facilities, drainage facilities, and schools and other public services exist or can be provided to serve the needs of the development.
- c. **City or County Council Action:** Action by the City or County Council shall be provided by Ordinance generally. City or County Council shall grant or deny the PD application within thirty (30) days from the receipt of the Planning Commission's recommendation.

Either Council may grant the application, may include specific modifications to the proposal or other applicable regulations, or may deny the application. If the Ordinance is granted, the City or County Council shall approve the application as recommended by the Planning Commission or approve the application with modifications, which shall be binding on the applicant. If modifications are required, the City or County Council shall officially state its reasons in the record.

If an amendment to the Comprehensive Plan is involved, neither Council shall proceed on the PD amendment until the Comprehensive Plan amendment is completed.

If the application is granted, the development shall be required to be in accord with the approved PD, meeting the requirements of these and other regulations, as supplemented or modified by the City or County Council in the particular case as part of the amendment action, and shall conform to any time or priority limitation established by the City or County Council on the beginning or completion of the development as a whole or in specified stages.

In taking action to amend the Official Zoning Map(s) to establish the approved PD, City or County Council shall pass upon the adequacy of the application, in form and/or substance relative to any agreements, contracts, deed restrictions, sureties, or other instruments involved, and before development may proceed, such instruments shall be approved by the appropriate city or county officers and departments.

3.p.9. Staff Action on Approved PD Amendments: Once a PD District is established on the official zoning map, no building permit shall be issued therein unless the City or County of Sumter has approved plans and reports for the development as adopted by the City or County Council, whole or in stages that are deemed satisfactory in relation to the total development. Upon approval, building permits shall be issued in such manner as for building permits generally. All plans and reports approved shall be binding on the applicant(s) and any successors in title so long as the PD zoning is applicable.

3.p.10. Changes in Approved Plans: Minor changes in approved final plans and reports may be approved by the planning staff only upon findings identical to those required for original approval. Major changes shall be subject to further amendatory action by the Planning Commission and City or County Council.

SECTION Q: AIRFIELD COMPATIBILITY (ACD) DISTRICTS

3.q.1. Purpose: The intent of the ACD is to prevent incompatible land uses or the creation of flight hazards which would impair the utility and public investment of the Shaw Air Force Base and the Sumter Airport.

3.q.2. Types of Districts: With the ACD there are several overlay districts which are shown on the Official Zoning Map(s) as follows:

- a. APZ-1, Accident Potential Zone I;
- b. APZ-2, Accident Potential Zone II;
- c. DNL-1, Day-Night Noise Level Zone I;
- d. DNL-2, Day-Night Noise Level Zone II;
- e. DNL-3, Day-Night Noise Level Zone III;
- f. NA, Noise Attenuation District.

3.q.3. Restrictions Within the Airfield Compatibility Districts: Land designated APZ-1, APZ-2, DNL-1, DNL-2, or DNL-3 may not be used for any purpose other than those indicated by Exhibit 7, and under the conditions attached thereto. Property owners or land users should consult both the text of this Section and the Official Zoning Map to determine the location of properties in question and the limitations imposed thereon by this Section.

3.q.4. Land Use: The use of land within these zones shall be subject to the following safety and performance standards and the requirements of Exhibit 3-8. Where permitted uses listed in Exhibit 3-8 are at variance with the applicable residential or non-residential zoning districts within which they are proposed, the more restrictive shall apply.

- a. Safety Standards – the concentration of persons per use shall be in compliance with Exhibit 3-7.
 1. Maximum Number of Persons – The maximum number of persons per use shall be a function of the number of hours of operation per day of the use and shall be expressed on an acre per hour basis. Furthermore, a structure or use or contiguous structure or use, shall not accommodate a gathering of individuals, including employees and non-employees, that would result in an average density of greater than twenty-five (25) persons per acre per hour during a 24-hour period or that would exceed fifty (50) persons per acre at any given time.

Such limitations shall be a special condition of the issuance of the building permit and the certificate of occupancy. The occupant of any such premises shall not permit such limitations to be exceeded. The premises shall thereafter

continuously be posted with a form of notice of such limitations, as prescribed by the Sumter City-County Planning Commission.

2. Concentrations of Persons Per Acre Standard

13	46
12 or less	59*

*Concentrations of persons per acre cannot exceed 50 persons per acre at any time.

Note: Fractions in the maximum persons allowed column are rounded to the lowest whole number.

3. Formula – The maximum persons per acre per hour for the duration of Time that persons are expected to be on site during a 24-hour period may be determined as follows:

- a. Average densities of persons per hour during a 24-hour period are determined by calculating the number of persons per acre expected on a site, multiplying by the number of hours they will be on the site, and dividing the total by 24.

Example #1: One 8-hour shift of 30 workers on a one (1) acre site.

$$30 \text{ persons expected} \times 8 \text{ hours on site} = 240$$

$$\frac{240}{8} = \text{average density of 10 persons per acre per hour during a 24-hour period.}$$

Example #2: Two 8-hour shifts of 30 workers on a one (1) acre site.

$$30 \text{ persons expected} \times 16 \text{ hours on site} = 480$$

$$\frac{480}{16} = \text{average density of 20 persons per acre per hour during a 24-hour period.}$$

- b. The maximum number of persons allowed per acre per hour is calculated by dividing 24 hours by the number of hours persons will be on the site, and multiplying the results by 25 persons per acre per hour.

Example #3: A use on a one (1) acre site has two 8-hour shifts.

$$\frac{24 \text{ hours}}{16 \text{ hours}} \quad \times \quad 25 \text{ persons} = 37.5 \text{ maximum}$$

3.q.5. Performance Standards: Height and size requirements shall be evaluated in accord with the “Ordinance Regulating the Height of Structures and other Activities in the vicinity of Shaw Air Force Base,” as adopted October 13, 1981.

- a. Setbacks:
 - Front 50 feet
 - Rear 50 feet
 - Side Interior Side – 20 feet
 - Exterior Side – 50 feet
- b. Off-Street Parking: Off-street parking for uses within this district shall comply with Article 8, Section I as appropriate.

3.q.6. Prohibited Uses: All uses indicated by a “*NO*” in the applicable sub-zone column of Exhibit 3-8 are expressly prohibited.

3.q.7. Non-Conforming Uses: The regulations prescribed by this section shall not be construed to require the removal, lowering of the height or other changes or alteration of any structure or use not conforming to the regulations as of December 30, 1991, or otherwise interfere with the continuance of any non-conforming use. Nothing herein contained shall require any change in the construction, alteration, or intended use of any structure, the construction or alteration of which has begun or plans or residential plats which have been filed in the Planning Commission Office prior to December 30, 1991.

3.q.8. Permits: Building permits and sign permits shall be required for all construction, in accordance with Section 1.p.1.

- a. Future Uses: Each application for a building permit shall indicate the purpose for which the permit is desired, with sufficient information to determine whether the resulting use or structure would conform to the regulations herein prescribed.
- b. Existing Uses: Any existing non-conforming use or structure may be replaced, substantially altered, or rebuilt in accord with the permit requirements in Article Six, Section A; provided such non-conforming use will not:
 - 1. Create a flight hazard or use not authorized by this Ordinance, or

2. Permit a non-conforming use or structure to be made or become a greater hazard to air navigation or less compatible in use than it was on December 30, 1991, or than it is when the application for a permit is made.

3.q.9. Variance Permits: The Sumter City-County Board of Appeals shall have the power to grant variances to the Safety Requirement Standards and/or the Performance Standards Regulations of this Section and to authorize the issuance of variance permits therefor as defined in Article 1, Section H of this Ordinance; provided that the Commander of Shaw Air Force Base, or his designee, shall be notified of any variance being requested and shall be asked for comments on such requests.

3.q.10. Other Ordinance: Adoption of this Ordinance shall not invalidate any existing Ordinance, and shall be used in addition to such Ordinances, such as the “Ordinance Regulating the Height of Structures and other Activities in the Vicinity of Shaw Air Force Base,” as adopted on October 13, 1981.

 ** More than two (2) dwelling units per acre
 *** Including duplex, triplex, and quadruplex
- (B) Computations for residential density include road's right-of-ways
- (C) dB=Decibels
- (D) 25,30 or 35 db – measures to achieve 25, 30, or 35 dB must be incorporated into design and construction of structures in accord with the “Guidelines for the Sound Insulation of Residences Exposed to Aircraft Operations,” prepared by the Naval Facilities Engineering Command, Special Advisors for Planning Administration, Office of Environment and Energy; and office of Airport Planning and Programming, Washington, D.C. latest edition.

(E) NA – not applicable

FOOTNOTES:

- (1) Uses compatible only if they do not result in a large concentration of people. A large concentration of people is defined as a gathering of individuals in an area that would result in an average density of greater than 25 people per acre per hour during a 24 hour period, or a single event that would result in the gathering of 50 persons per acre at any time. (See Safety Requirement Standards)
In addition, the following factors need to be considered: Labor intensity, structural coverage, explosive characteristics, air pollution, size of establishment, peak period (including shopper/visitor) concentrations.
- (2) No passenger terminals and no major above ground transmission lines.
- (3) Meeting places, auditoriums, etc. not allowed
- (4) Excludes chapels
- (5) Facilities must comply with Safety Requirements Standards and no high-intensity use of facilities, such as structured playgrounds, ballfields, or picnic pavilions.
- (6) Clubhouse not allowed.
- (7) Concentrated rings with large classes not allowed.
- (8) Includes livestock grazing but excludes feedlots and intensive animal husbandry
- (9) Includes feedlots and intensive animal husbandry.
- (10) Measures to achieve Noise Level Reduction (NLR) of 25 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas or where the normal noise level is low.
- (11) General Merchandise – Retail compatible provided that individual shops do not exceed 2,500 sq. ft. and that not more than four (4) shops per acre are allowed.
- (12) Measures to achieve Noise Level Reduction (NLR) of 30 dB must be incorporated into the design and construction of portions of these buildings where the public is received, office areas, noise sensitive areas, or where the normal level is low.

- (13) Measure to achieve Noise Level Reduction (NLR) of 35 dB must be incorporated into the design and construction of portion of these buildings where the public is received, office areas, noise sensitive areas, or where the normal level is low.
- (14) Mitigation measures to reduce noise within structures in noise contour zones.

SECTION R: RANGE COMPATIBILITY DISTRICTS (RCD)

3.r.1. Purpose: The intent of the RCD is to prevent incompatible land uses or the creation of flight hazards, which would impair the utility and public investment of Poinsett Electronic Combat Range (PECR).

3.r.2. Within the RCD, there are several overlay districts, which are shown on the Official Zoning Map as follows:

- a. DNL-1, Day-Night Noise Level Zone 1
- b. DNL-2, Day-Night Noise Level Zone
- c. NA, Noise Attenuation District

3.r.3. Restrictions Within the Range Compatibility Districts: Land designated DNL-1, and DNL-2 may not be used for any purpose other than those indicated by Exhibit 7 and under the conditions attached thereto. Property owners or land users should consult both the text of this Section and the Official Zoning Map to determine the location of properties in question and the limitations imposed thereon by this Section.

3.r.4. Land Use: The use of land within these zones shall be subject to the safety and performance standards in Sections 3.q.4 and the requirements of Exhibit 3-8.

3.r.5. Performance Standards: Height and size requirements shall be evaluated in accord with the “Ordinance Regulating the Height of Structures and other Activities in the vicinity of Shaw Air Force Base,” as adopted October 13, 1981.

- a. Setbacks:

Front	50-feet
Rear	50-feet
Side	Interior Side 20-feet
	Exterior Side 50-feet
- b. Off-Street Parking: Comply with Article 8, Section I as appropriate.
- c. Noise Hazard Signs: Developers for all new major subdivisions will install at their expense a noise notification /warning sign (same as installed by Sumter County on the boundary of the NA) at each entrance to the subdivision before building permits may be issued.

3.r.6. Prohibited Uses: As indicated in Exhibit 3-8 for appropriate districts.

3.r.7. Non-Conforming Uses: The regulations prescribed by this section shall not be construed to require the removal, lowering of the height, or other changes or alterations of any structure or use conforming to the regulations as of December 31, 2002, or otherwise interfere with the continuance of any non-conforming use. Nothing herein contained shall require any

change in the construction or alteration of which has begun or plans or residential plats which have been filed in the Planning Commission Office prior to December 31, 2002.

3.r.8. Permits: As described in Section 3.q.8 of this Ordinance.

3.r.9. Variance Permits: The Sumter City-County Board of Appeals shall have the power to grant variances to the Safety Requirements Standards and/or the Performance standards Regulations of this Section and to authorize the issuance of variance permits therefore as defined in Article 1, Section H of this Ordinance; provide that the Commander of Shaw Air Force Base, or his designee, shall be notified of any variance requested and shall be asked for comments on such requests.

3.r.10. Other Ordinance: Adoption of this Ordinance shall not invalidate any existing Ordinance, and shall be used in addition to such Ordinances, such as the “Ordinance Regulating the Height of Structures and other Activities in the Vicinity of Shaw Air Force Base,” as adopted on October 31, 1981.

3.r.11. DNL Lines: No manufactured / mobile homes may be placed inside the DNL lines as developed by the US Air Force and published by the Sumter Planning Commission GIS Department.

NOTE: Existing, approved major subdivisions, and mobile home parks with current city business licenses that have infrastructure in place will be allowed to continue to develop any/all remaining parcels/lots. No new parcels/lots may be added to the subdivision or mobile home park after the adoption of this revision. However, all existing lots/parcels may be fully used/reused or developed. This note applies to both APZ 2s and the DNL restriction. Any subdivision and/or mobile home parcels started after the adoption of these changes must be developed in accordance with all the new regulations.

SECTION S: NOISE ATTENUATION (NA) DISTRICT

3.s.1. Purpose: The intent of this district is to define areas by physical features, which are prone to exposure to airport and range operations noise and changes in the patterns thereof. Therefore, the purpose of the district is to reduce the noise, which may accrue to the benefit of the health, safety, welfare of the occupants of or those associated with the uses of land therein.

3.s.2. Noise Notification Zone: Noise Notification Zone is hereby created by map action, which depicts the area adjacent to Shaw Air Force Base and/or Poinsett Range. This notification would be shown on all plats / building permits and other correspondence regarding construction within the area so designated.

SECTION T: HIGHWAY CORRIDOR PROTECTION DISTRICT

3.t.1. Purpose: The purpose of the Highway Corridor Protection District is to promote development that is compatible with the function, capacity, and design of major arterial roadways, while remaining sensitive to the relationship of the roads to abutting residential, commercial, and industrial development. Existing residential uses within the District will remain unaffected. The implementation of the Highway Corridor Protection District shall be fulfilled in the manner of an overlay zone.

The Highway Corridor Protection District encompasses the lands within three hundred feet (300 ft.) measure from the centerline (or the depth of the lot to be developed, whichever is greater) on both sides along specific sections of the following streets, roads, or highways within the City and County of Sumter, South Carolina.

3.t.2. Highway Corridor Protection District Map: An overlay map of the Highway Corridor Protection District boundaries shall be included as part of this Article.

3.t.3. General Standards: Persons wishing to develop residential subdivisions, commercial, industrial, or billboard projects with the Highway Corridor Protection District shall comply with the standards as follows:

- a. Development and dimensional standards of the primary zoning district shall be applicable;
- b. The siting and orientation of commercial and industrial buildings and structures such as billboards, on a lot should front and be parallel to the street or highway providing primary accesses thereto, existing lot configuration notwithstanding;
- c. Where feasible, off-street parking should be located in the rear yard area of commercial or industrial projects, or screened by vegetation or berms, if located in the front or side yard area in addition to any other requirements in 8.i.3.k.;
- d. Outdoor sales lots and open storage areas of commercial or industrial projects shall not be permitted, unless adequately screened or removed from public view; Car Dealerships and mobile home sales lots are expressly excluded from this provision, but nevertheless shall meet all requirements for landscaping and buffering as set forth in Article Nine.
- e. Curb cuts should be not less than 1,000 foot intervals, where feasible;

3.t.4. Architectural Standards: All commercial projects in the Highway Corridor Protection District shall submit architectural plans to the Sumter City-County Planning Commission which shows elevations of all portions of buildings with important relationships to public views and vistas, indications as the construction materials, photographs or perspective drawings indicating

visual relationships to adjoining properties and spaces, paint and color schemes, and other exhibits and reports the Sumter City-County Planning Commission may require.

Applicant shall also submit a landscaping plan and signage plan for the project site. In addition, all commercial projects shall meet the following standards:

- a. If a new commercial building is proposed, not more than sixty percent (60%) of the facade facing a street may be glass or reflective materials;
- b. Significant exterior renovations to a building, such as a change of material types, structural design, or additions require review;
- c. A minimum of eighty percent (80%) of the surface materials, excluding doors and windows, shall be brick, stucco, or stone masonry or materials approved by the Sumter City-County Planning Commission. Building sides clearly visible from street or public view, shall be constructed of above mentioned materials or heavily mitigated with landscaping and shown on the required landscaping plan as part of their application. Roof pitch should be compatible with the building structures in the surrounding neighborhood.
- d. Signs including billboards shall be fully illustrated through photographs or graphic designs showing the relationship of off-premise and on-premise signs to the specific site and the surrounding locations within 1,000 feet. The signage plan shall consist of all freestanding and building signage. (Shall meet development standards for the underlying zoning district.);
- e. The landscaping plan shall include parking lot, building perimeters, detention ponds, and bufferyards where required.
- f. All proposed fences and / or walls proposed forth the front and / or side yards shall be reviewed as part of the Highway Corridor Design Approval Request.

3.t.5. Approval Authority: When applying for an occupancy permit or building permit in the Highway Corridor Protection District, applicants shall have a site plan or subdivision plan approved by the Sumter City-County Planning Commission if either Major Site Plan or Major Subdivision Plan criteria is met as outlined in Article Seven, Section D. For all requests that fall in the Minor Site Plan or Minor Subdivision criteria, the Planning Staff will be the approval authority for the Highway Corridor Protection district requests. Appeals of Planning Staff decision shall follow the normal procedures and go to the Board of Appeals.

SECTION U: FARMING

3.u.1. General Farming Operations, while permitted in all zoning districts, shall meet the following development standards, where applicable.

1. A minimum of three (3) acres shall be required for commercial farming operations. No minimum area (acreage) requirements for personal or private farming operations in connection with a residential use.
2. Unless specified elsewhere by these regulations, all accessory and principal buildings shall meet the minimum yard and setback requirements for the district in which the farming use is located, except that barns, stables, pens, or other animal shelters shall be located no closer than 100 feet to the nearest residential property line.
3. Commercial reduction of inedible animal or vegetable matter on the premise is prohibited. See 5.b.3.f.
4. Commercial piggeries (hog raising for other than family use) are permitted only on a farm of at least 10 acres, and no hogs shall be permitted within 150 feet of any residential use.
5. Roadside stands may be established for the sale of fruits and vegetables grown on the farm, provided such structures meet all required setbacks.

SECTION V: PUBLIC UTILITIES AND PUBLIC SERVICE COMPANIES

3.v.1. Public Utilities and Public Service Companies provide needed local services including water, sewer, electricity, gas, telephone, and cable services. In order to have a minimum impact on their operating costs and maintain the maximum tax base, the following provisions/exemptions apply to those utilities and service companies as defined in this Section:

Minor Utilities will be allowed in all zoning districts provided Planning staff has reviewed plans for compliance with the 2030 Comprehensive Plan as required under Section 6-29-540 of the South Carolina Code of Laws.

Major Utilities as defined by the SIC are subject to the use guidance of each district, as set forth in Article III and Exhibit 5:

- SIC Code 484 Cable Services
- SIC Code 491 Electrical Services
- SIC Code 492 Gas Production & Distribution
- SIC Code 493 Combination of Electric & Gas
- SIC Code 494 Water Supply
- SIC Code 4952 Sewerage Systems
- SIC Code 48 Telephone Utility

Site Criteria

NO minimum lot area requirement for minor utility stations as long as criteria below can be met:

- a. The minimum setback on all sides is 5 feet.
- b. The maximum impervious surface ratio is 75 percent.
- c. Maximum height will be in accordance with zoning district regulations.
- d. Each site must be reviewed by the Planning Staff for sight-triangle compliance and visibility before final approval of the above is approved.
- e. All utilities required to be secured with a fence (minimum 6 foot opaque).
- f. A landscape buffer shall be required screening the area from public view. If area is wooded, applicant shall preserve the natural vegetation to the maximum extent possible and to meet buffering requirement.
- g. The site may be served via a private access easement or driveway.
- h. The site may be owned by the utility provided or may be on leased land from the property owner with a utility easement.

Exclusions from requirement:

Distribution lines and underground utilities are exempt from the above-mentioned criteria.

3.v.2. Public Utilities and Public Service Companies operating on property they own may obtain relief from the Zoning Ordinance and Development Standards as a Special Exception that may be granted by the Zoning Board of Appeals.
